

Program Description

Patient Care Specialists are multi-skilled health care team members. Patient Care Specialists are trained in Phlebotomy, EKG, Nursing Assistant, and Unit Health Coordination. Work may include working in individual departments or as a cross-trained employee utilizing all or most of their training. Patient Care Technicians work in hospitals, long-term care, outpatient clinics and laboratories.

Career Outlook

Patient Care Specialist jobs are expected to grow 5% or more over the next 10 years.

Salary Forecast

The average Patient Care Technician salary in the United States is **\$35,646** as of, but the salary range typically falls between **\$31,073** and **\$39,143**.
