

MICHAEL MARTINEZ SCOTT, Ph.D., M.Div.

(951) 892-8907 | michaelscott8@yahoo.com

One to One Tutoring is the most effective form of teaching.

Dr. Scott's research has led to classrooms using one to one engagement innovations involving 100% of students. These strategies have consistently transformed inner-city and GATE students' standardized test scores. His San Bernardino, 4th grade inner-city students, increased from 22% to 52% at grade level.

Dr. Scott founded a California Distinguished School (CDS), Irvine International Academy (IIA) and served as its first Superintendent. Within 3 years, IIA (Mandarin and English dual immersion) is the top academic school in Orange County and placed 14th in 5,800 California schools. His responsibilities included: education and business policies, ethics, school handbook, Human Resources (recruited initial office staff and teachers), curriculum, pupil services, special education, and state testing.

As an education consultant, Dr. Scott has traveled around the world. Over 8 years, he presented engagement strategies in over 60 Chinese schools (including Beijing No. 2 Experimental School and Beijing Normal University), California, and Texas. Dr. Lu, China's top principal, encouraged him to create a Mandarin and English Dual Immersion school in California (Irvine International Academy).
