

I have been using Jennie's staging services for over five years now and couldn't be happier. Her creativity and eye for design is incredible, she has transformed spaces that I would never have a clue on what to do with them. I know that the homes that I have sold have sold for more than they would have without Jennie's staging.

Jennie always delivers on time and her services are very affordable.

- CC S.

I've used Jennie for staging on multiple properties over the past 2 years, and I've always found her to be professional, responsive, and willing to go out of her way to work within tight timelines, if needed.

As a listing agent, this reflects very well on my service and promises made to Sellers.

Her room designs have photographed beautifully and created inviting spaces for potential buyers to experience. She goes over and above any other staging company I have used in the past, and her rates are as affordable as they come. I expect attractive results at a reasonable price, and she has never disappointed!
