

# Blue Jays

## Konrad Szczepanik

I had not seen or heard anything about or from Konrad in ages until Johnny Mac just happened to bump into him around Christmas time in 2024. From there, he passed along the fact we could sure use him on the team and we started talking and next thing you know, he's coming out to our indoor batting cage sessions and being same old Konnie.

For his first year with the team, he sure did fit in like a glove. In 19 games played (which included our heart breaking walk off loss in the Wild Card round), Konnie hit an astounding .523, had an OBA of .648 and an OPS of 1.285, all 3 of which ranked 3rd best on the team. Konnie was a steadying influence on the guys and took command behind the plate.

Although he was slowed by a calf injury, that didn't slow his enthusiasm and his drive. He even brought back with him his famous (infamous?) Konky Awards for post game awards which really helped keep the team united and loose.

After a great first season (despite not being familiar with the league at all), Season 2 for Konnie should be even better.
