ABOUT US

■ We are "THE INDUSTRY FOUR". The Industry Four is an initiative to serve the industry & society. We serve the industry & society in the field of industry 4.0 disruptive transformation. We do it by our learning & consulting services and via our novel initiatives, architecture framework, body of knowledge, research institute and integrated ecosystem.

■ The Fourth Industrial Revolution (or Industry 4.0) is the ongoing automation of traditional manufacturing and industrial practices, using emerging technology innovations and disruptive transformations. Industry 4.0 is simply the empowerment of Industry 3.0 with Digital Transformation and Technology Convergence. In this sense, it does not remain limited to just a technology evolution. It covers all the aspects of an enterprise including both business and technology. Whereas the fourth revolution is about Profit & Growth. However, the forthcoming revolution is about Sustainability & Support. It is about Supporting the Sustainability of our Planet, People, Peace, and Green Environment.

■ Industry 4.0 is happening now. However, the vision and mission of THE INDUSTRY FOUR are not limited to the current state of industry 4.0. For us Industry 4.0 is the starting point of our journey, leading towards the factory of the future or the forthcoming industrial revolution. Aligned with our vision, The Industry Four is about fourth to forthcoming industrial revolution. The Industry Four is about Industry now to Industry next. It is about the Industry and Society.

■ "ti4" stands for "The Industry Four" is the abbreviation derived from our prime initiative THE INDUSTRY FOUR. The Industry Four is the identity and epicenter of our portfolio of initiatives. The Industry Four is operating as the anchoring point of our existing initiatives and as well as for any upcoming initiatives. The Industry Four is an agile initiative that is continuously evolving along with the pulse of fourth to forthcoming industrial revolution. The Industry Four is an integrated platform for the creation of industry thought leadership in the field of the industry 4.0 disruptive transformation, emerging technology, accelerated innovation, technology convergence and future industry trends.
