Subject: Invitation to Participate in our ti4 CONNECT Program (Under our CSR Initiative).

To,

Management,
Industrial Corporates / Government Organizations / Educational Institutions.

Dear Sir / Madam,

Excellence in education empowers young individuals for personal and professional growth, which in turn positively impacts national economies. Aligned with this goal, we are deeply committed to serving industry and society through educational initiatives. To achieve this objective, we regularly undertake diverse initiatives, including our Consulting & learning services and CSR programs. **CONNECT - Collective Opportunity Network to Navigate and Explore the Common Target**, is one of our flagship initiatives that aligns with our CSR - Corporate Social Responsibility objectives.

We invite industry, government organizations, and educational institutions to join and participate in our CONNECT Program, where we conduct interactive workshops and training sessions to prepare staff and students for the professional world. The Industry Four CONNECT Program operates across two distinct Collective Opportunity Network areas: one tailored for industrial and government organizations, and the other focused on educational institutions.

For more information or to express your interest in joining CONNECT, please visit our dedicated webpage for CONNECT at [<https://theindustryfour.org/connect>] or reach out to us at [connect@theindustryfour.org].

Let's CONNECT and shape the future together!

Best regards,

Kuldeep Kaushik
