THE INDUSTRY FOUR

A Blueprint of Fourth to Forthcoming Industrial Revolution.

We are "The Industry Four". "The Industry Four" is an initiative to serve the industry & society. We serve the industry & society in the field of industry 4.0 digital transformation ecosystem. We serve the industry & society by our novel initiatives, standardization framework, industry ecosystem, and by our Learning & Consulting services.

The Fourth Industrial Revolution (or Industry 4.0) is the ongoing automation of traditional manufacturing and industrial practices, using emerging technology innovations.

Industry 4.0 is simply the empowerment of Industry 3.0 with Digital Transformation. In this sense, it does not remain limited to just a technology evolution. It covers all the aspects of an enterprise including both business and technology.

Industry 4.0 is happening now. However, the vision and mission of "The Industry Four" are not limited to the current state of industry 4.0. For us Industry 4.0 is the starting point of our journey, leading towards the factory of the future or the forthcoming industrial revolution.

FOUR**

ti4

THE
INDUSTRY
FOUR

ti4 stands *for* The Industry Four >

“ti4”

“ti4” stands for “The Industry Four”.

“ti4” stands for “The Industry Four” is the abbreviation derived from our prime initiative **THE INDUSTRY FOUR**.

THE INDUSTRY FOUR is the identity and epicenter of our portfolio of initiatives. The Industry Four is operating as the anchoring point of our existing initiatives and as well as for any upcoming initiatives.

THE INDUSTRY FOUR is an agile initiative that is continuously evolving along the Pulse of Progression.

THE INDUSTRY FOUR is about transitioning from Industry Now to Industry Next.

THE INDUSTRY FOUR is about the transformation of Enterprise Architecture Model of Today to Enterprise Architecture Model of Tomorrow.

MOTIVES

Our Lighthouse and Guiding Principles

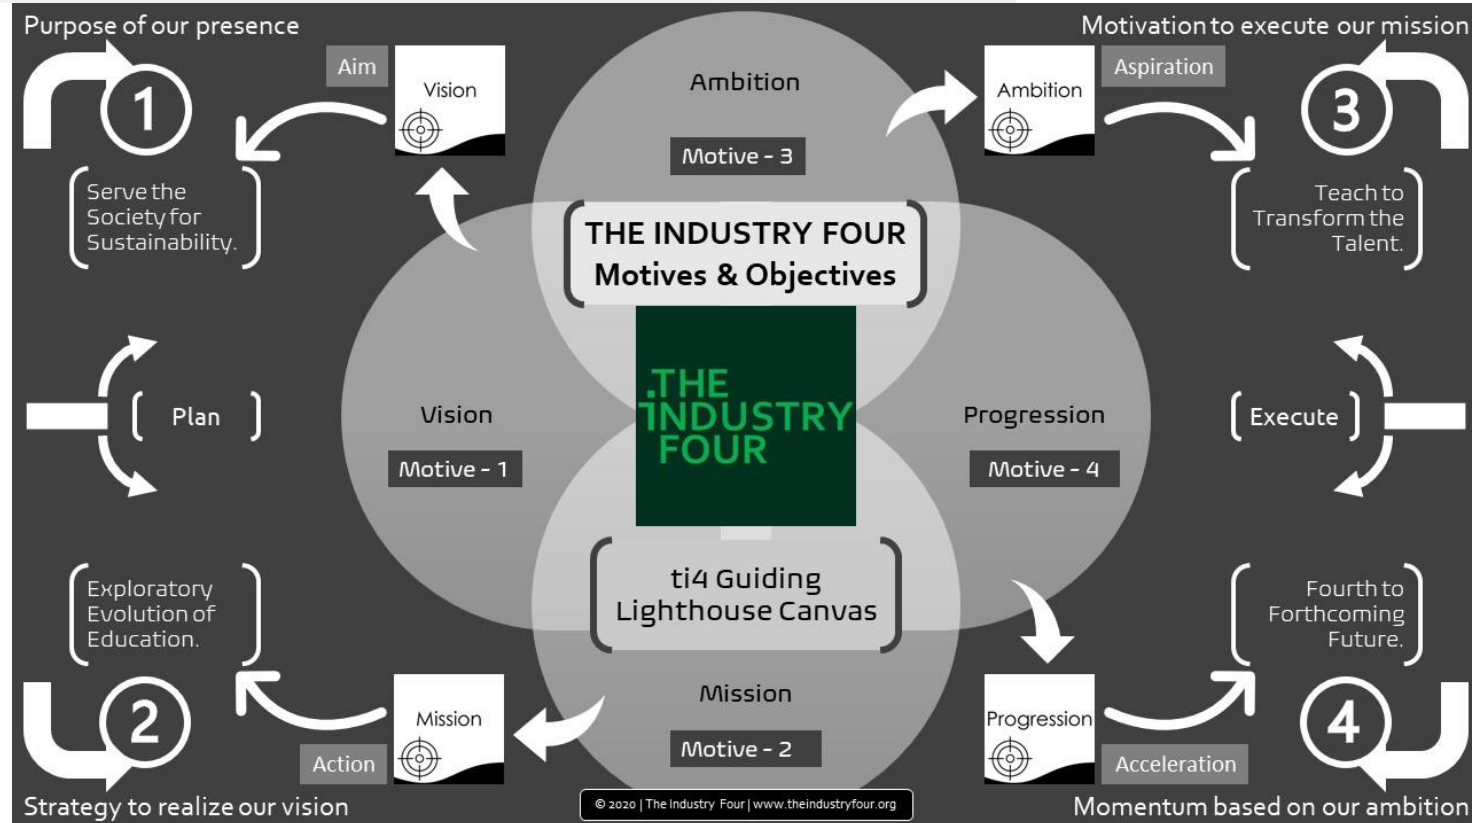

We work on our initiatives based on our motives. These motives, act as a lighthouse and guiding principles for us. These Motives help us to define our progression path and move forward on that progression path.

■ **Vision** – Serve the Society for Sustainability.

■ **Mission** – Exploratory Evolution of Education.

■ **Ambition** – Teach to Transform the Talent.

■ **Progression** – Fourth to Forthcoming Future.

INITIATIVES

The Industry Four Portfolio of Initiatives

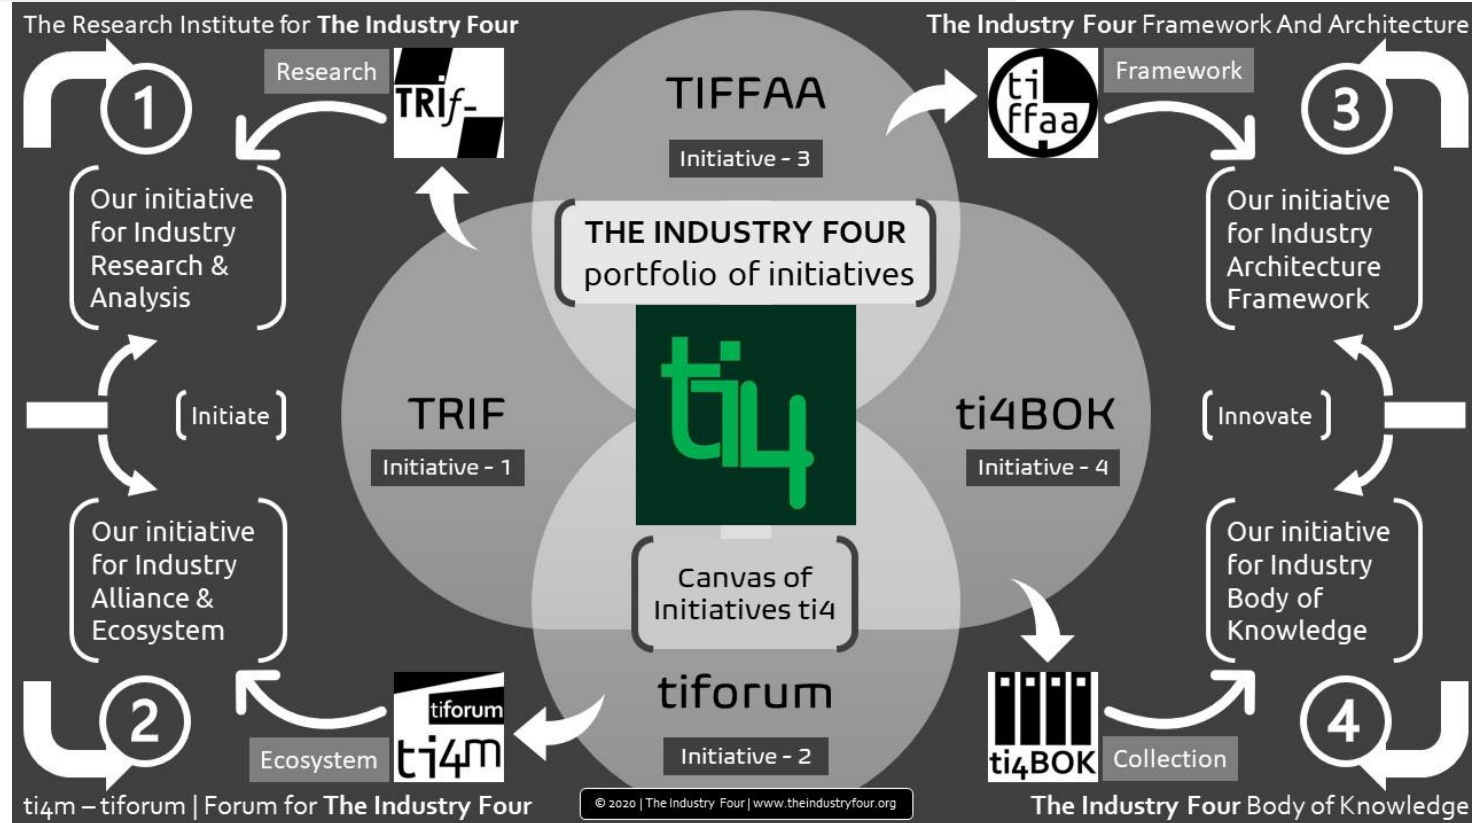

Innovative Initiatives of THE INDUSTRY FOUR

To serve the industry & society, we regularly took diversified initiatives.

These initiatives are including but are not limited to, industry partnership program, industry-academy interaction program, Emerging technology focus areas, Industry forum and integrated ecosystem, industry body of knowledge, and industry framework architecture.

Following are our four key initiatives to serve the industry & society ecosystem for sustainability and growth:-

- **TRIF** - The Research Institute for THE INDUSTRY FOUR
- **tiforum** - Forum for THE INDUSTRY FOUR
- **ti4BOK** - THE INDUSTRY FOUR Body of Knowledge
- **TIFFAA** - THE INDUSTRY FOUR Framework And Architecture

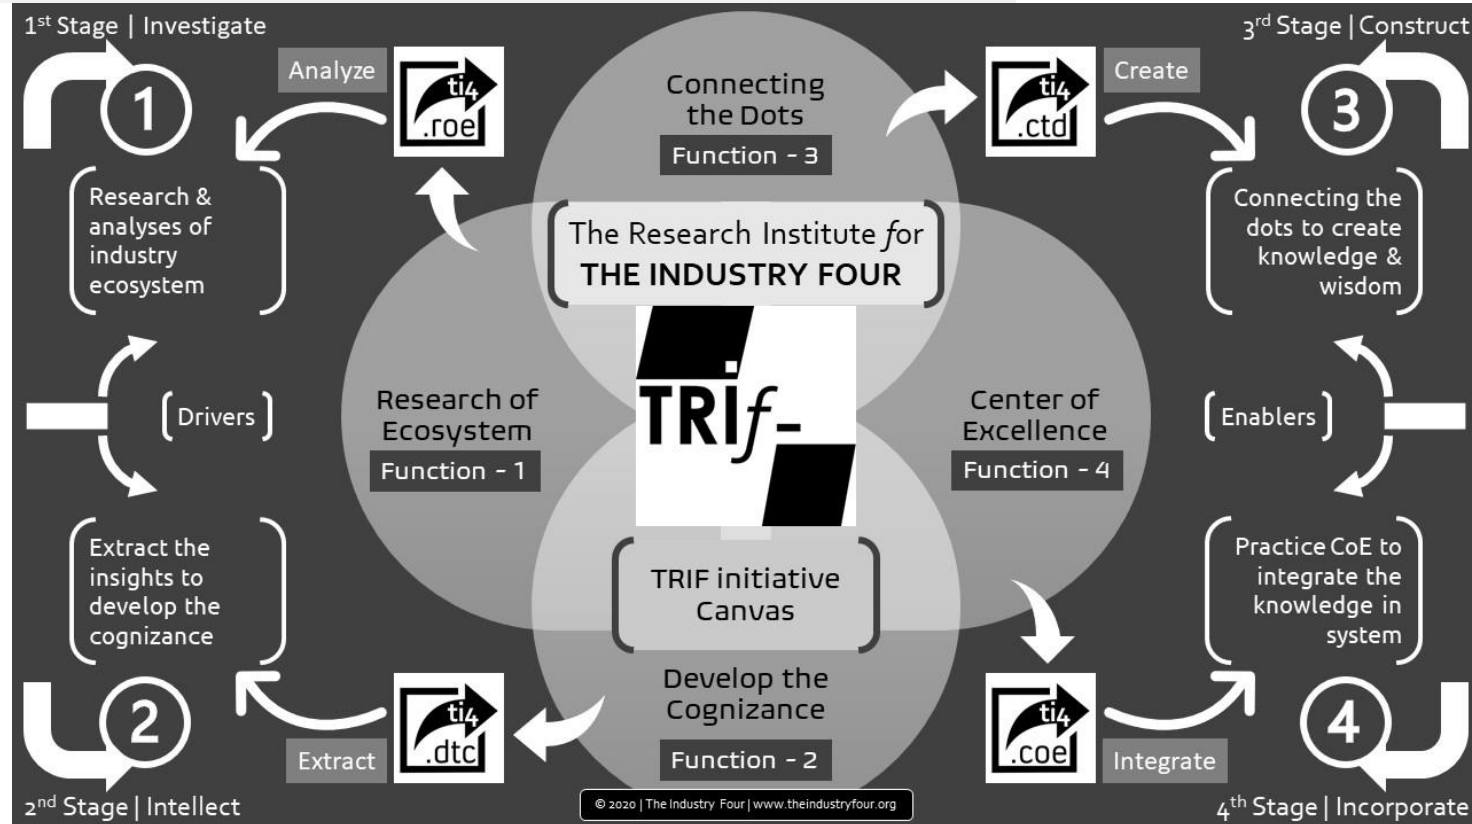

INITIATIVE – 1 | TRIF

The Research Institute for The Industry Four

- The Research Institute for The Industry Four
- TRIF-ti4 is our initiative to execute our Industry Research and Analysis Program.
- TRIF-ti4 acts as an enabler for the development of our capabilities and expertise.
- TRIF-ti4 executes the research and analysis program in four successive stages.
- These four stages of TRIF defines as four functions and performs specific activities to achieve the intended purpose of individual stages.
- As per the conceptualization of The Research Institute for The Industry Four, outcome of each stage becomes the inputs and enabler of the successive stage.
- Core themes of four functions of TRIF-ti4 are Analyse, Extract, Create and Integrate.

INITIATIVE - 2 | tiforum

Forum for The Industry Four

■ tiforum | Forum for The Industry Four

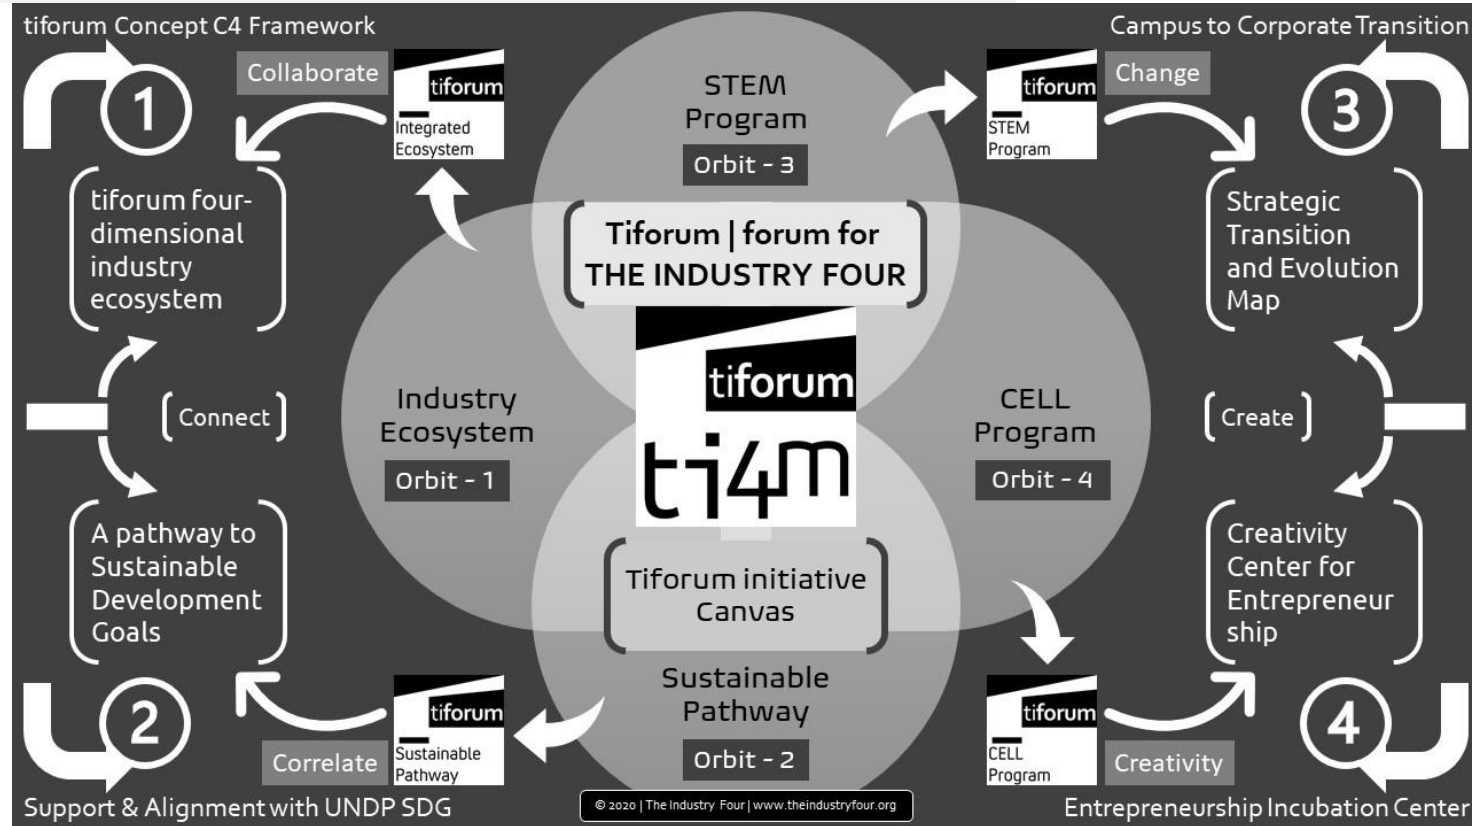

■ Collaborations are crucial to reveal the full potential of industry 4.0 digital transformation ecosystem.

■ To take the complete advantage of technology and strengthen the modern industry ecosystem, collaborations are essential.

■ Moving ahead with this motive, we are eager to join hand with academy and industry organizations, where we can serve the industry & society, aligned with our vision and mission.

■ To achieve this objective, we are executing our industry alliance and collaborations via our initiative "The Industry Four Partner Program".

■ We have created tiforum to establish an all inclusive and integrated ecosystem of Industries, government organizations, academic institutions, and individual industry expert to create the industry best practices.

INITIATIVE – 3 | ti4BOK

The Industry Four Body of Knowledge

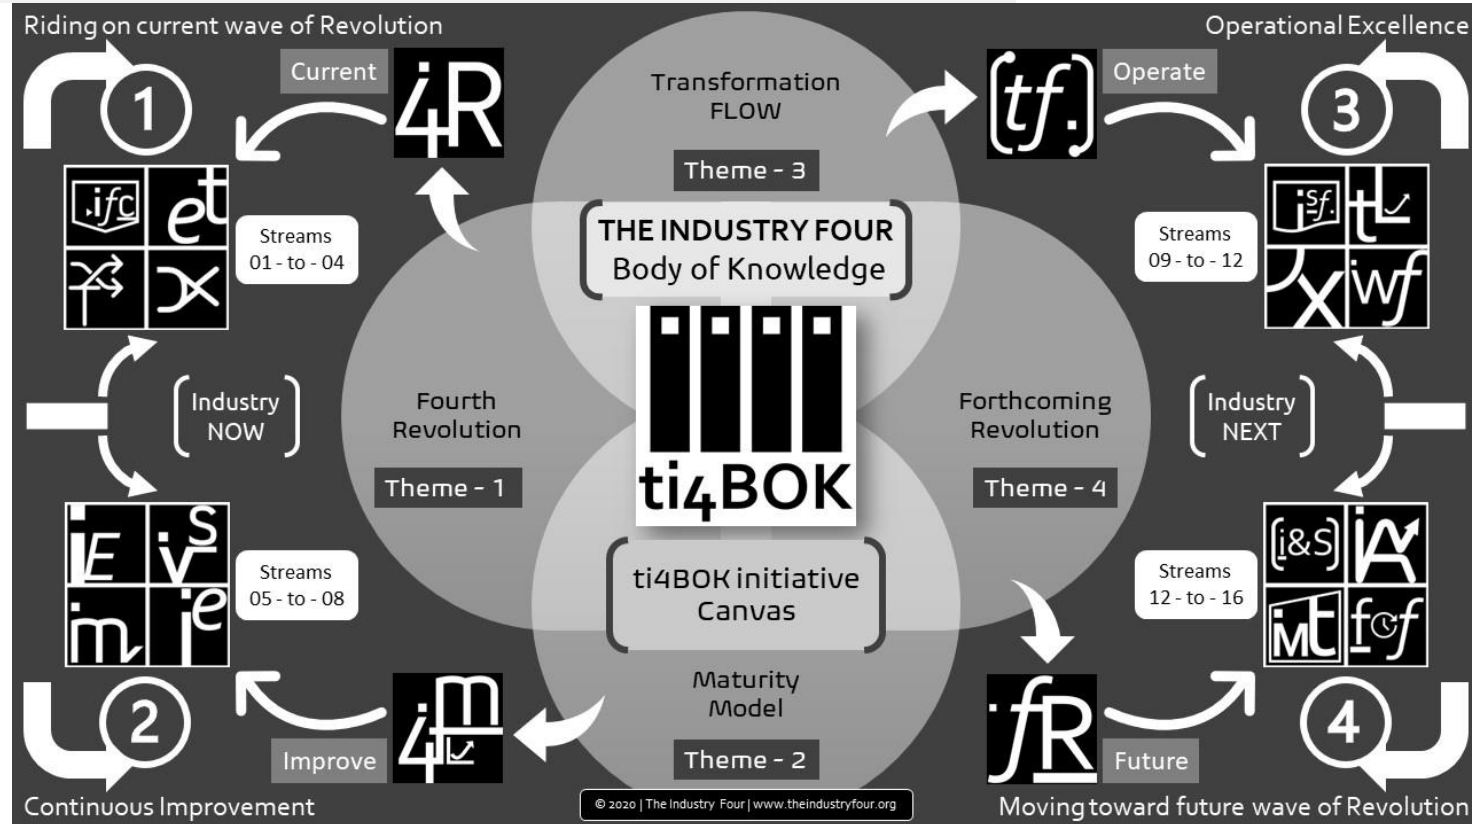

■ ti4BOK - The Industry Four Body of Knowledge

■ ti4BOK is an initiative of THE INDUSTRY FOUR. We have taken this initiative to serve the Industry & Society to compile the concepts of fourth Industrial Revolution and as well as any Forthcoming Industrial Revolutions in a holistic way.

■ ti4BOK is an initiative, which we have strategically defined and built in such a simple and systematic way, so that, it can be easily explored, navigated, and understood by the industry professionals and experts.

■ ti4BOK has defined to achieve one of the strategic objectives of TIFFAA – The Industry Four Framework And Architecture, which is the "Collection of Concepts".

■ "Collection of Concepts" is the strategic objective of TIFFAA, which we have considered with a motive to define a complete set of concepts, terms, activities, and process guidelines to build an industry central reference.

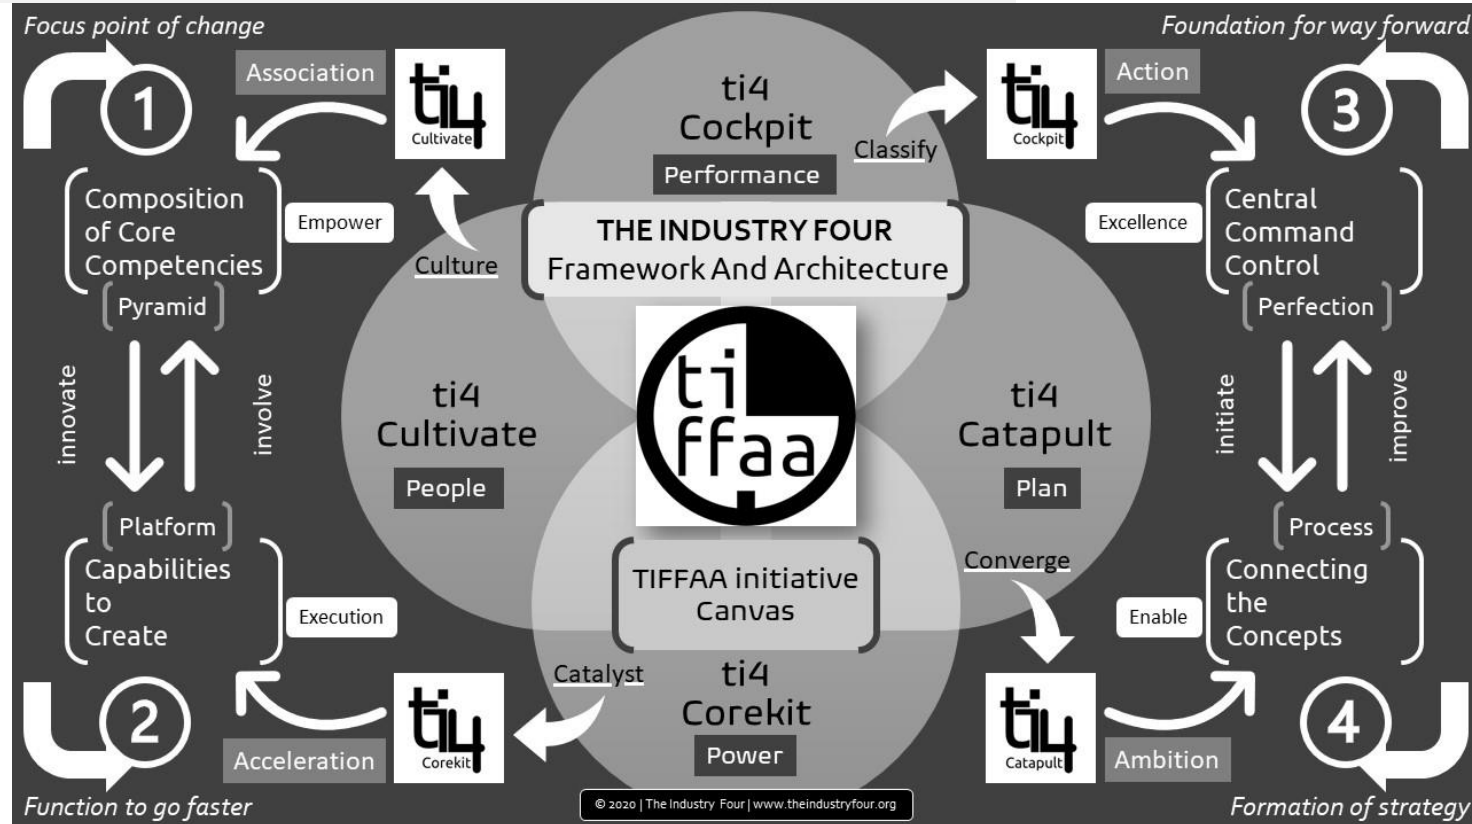

INITIATIVE – 4 | TIFFAA

The Industry Four Framework And Architecture

- TIFFAA - The Industry Four Framework And Architecture.
- TIFFAA is a framework, which has been designed and developed in such a way that it collaborates with organizational strategy and transformation initiatives.
- TIFFAA - a framework for the industry four. TIFFAA is an industry-neutral and cross-functional framework architecture. TIFFAA has been conceptualized as an initiative of THE INDUSTRY FOUR, with a motive to create a global and novel industry standardization ecosystem.
- TIFFAA is an architecture that always keeps itself in a dynamic state and adept with market conditions, business trends, industry change influencing factors, and technology evolution.
- The industry ecosystem is going the influence the industry marketplace in a significant way and the concept of TIFFAA is defined to capture the characteristics of the industry & society ecosystem.

SERVICE PORTFOLIO

Our Capabilities and Expertise

We offer Consulting and Learning services in the field of Industry 4.0 Digital Transformation Ecosystem, covering diversified technology and business aspects. We have defined the structure of our Expertise and Capabilities in the following four Ability Areas.

- **Ability Area 1 - Academy ti4 | Teach to Transform.**
- **Ability Area 2 - Advisory ti4 | Enhance to Enable.**
- **Ability Area 3 - Assessment ti4 | Evaluate to Evolve.**
- **Ability Area 4 - Accreditation ti4 | Assess to Assure.**

PRODUCT PORTFOLIO

Our Training Products

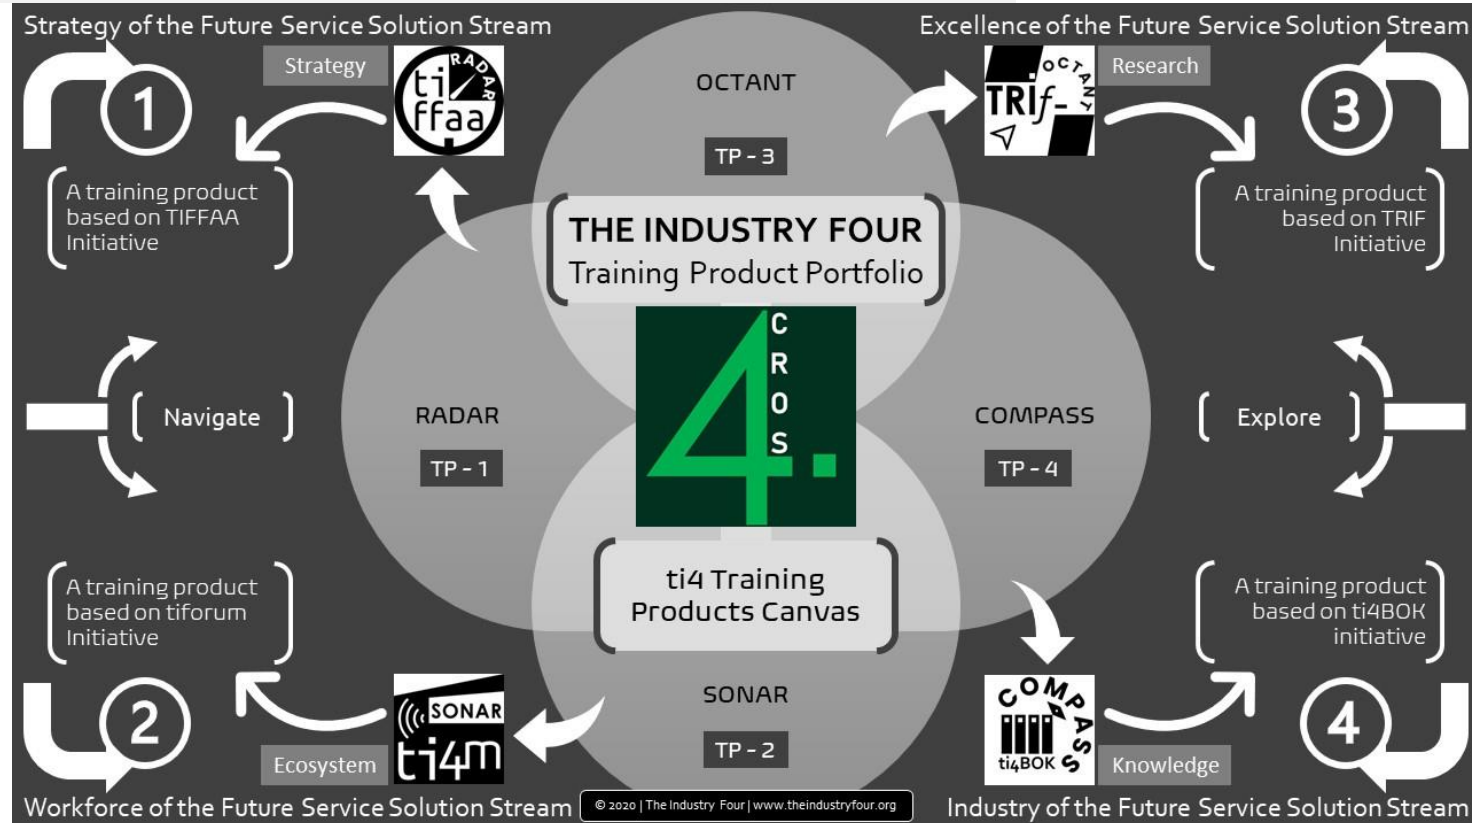

We provide our Academy ti4 - Learning Services as ti4 Training Products (ti4-tp). We deliver our Learning Services in a modular approach in the form of KTM - Key Training Module. Following are our four learning Streams.

■ **TIFFAA – Radar** is about to continuously scanning and surveying an enterprise environment in a 360-degree fashion like as a Radar.

■ **tiforum – SONAR**. Like as a SONAR, we can use the concepts of this product for the Navigation and Ranging of Corporate world's Environment and Culture.

■ **TRIF - Octant** equips individuals and teams to make informed decisions and solve intricate problems by establishing a CoE - Center of Excellence.

■ **ti4BOK - Compass** is a product, designed to serve as your guiding tool in navigating the intricate landscape of fourth to forthcoming industrial revolution.

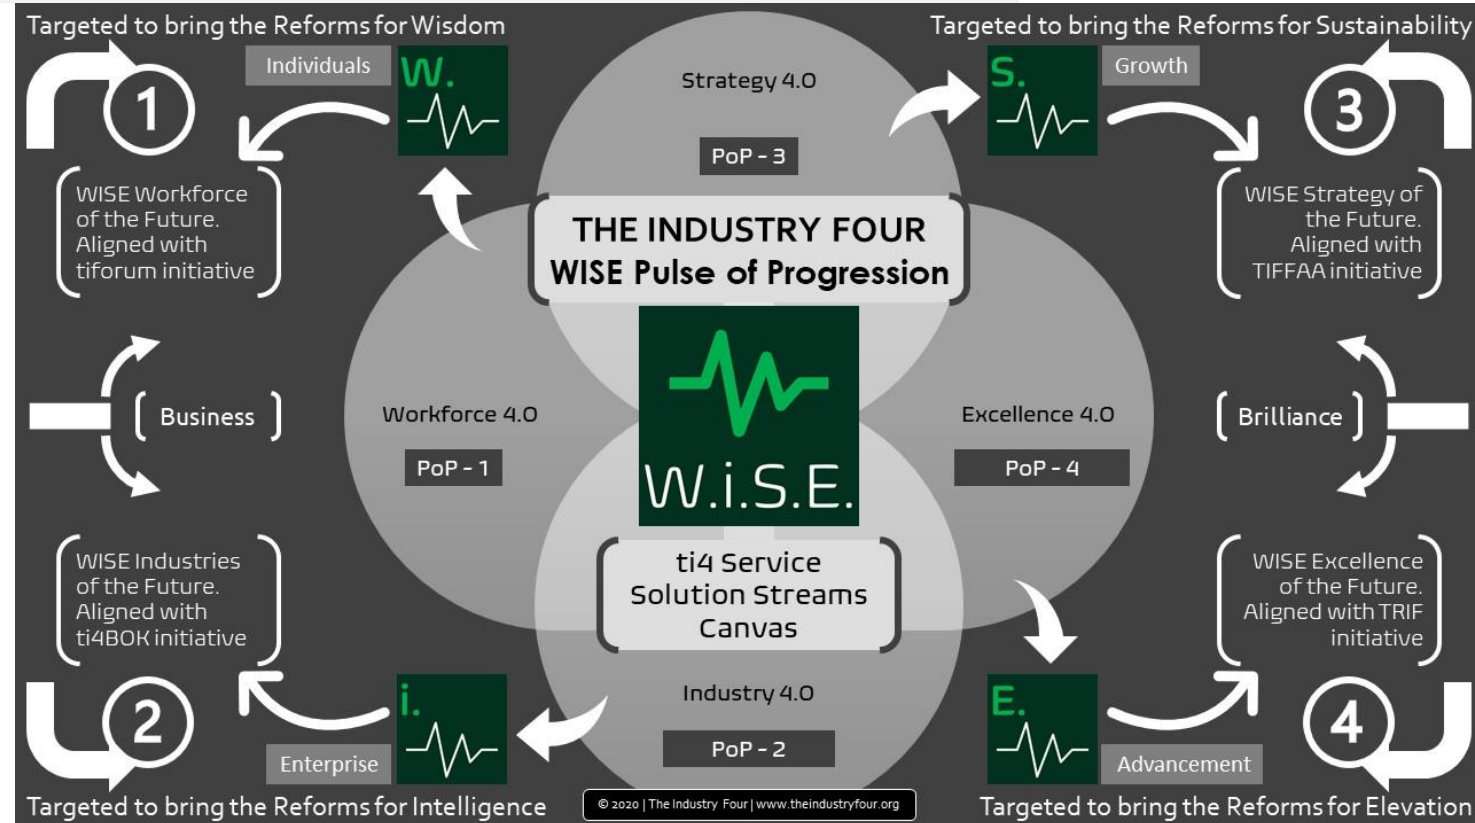

SOLUTION STREAMS

Our Focus area of Product & Service Delivery

Our Solutions Streams represents the strategically defined dimensions and domains in which we deliver our products and services to solve the specific requirements of Industry & Society. Following are our four WISE Solution Streams to represent our focus area.

- **WORKFORCE 4.0** - Workforce of the Future Stream.
- **INDUSTRY 4.0** - Industry of the Future Stream.
- **STRATEGY 4.0** - Strategy of the Future Stream.
- **EXCELLENCE 4.0** - Excellence of the Future Stream.

LEARNING STREAMS

The way to execute our Training Programs

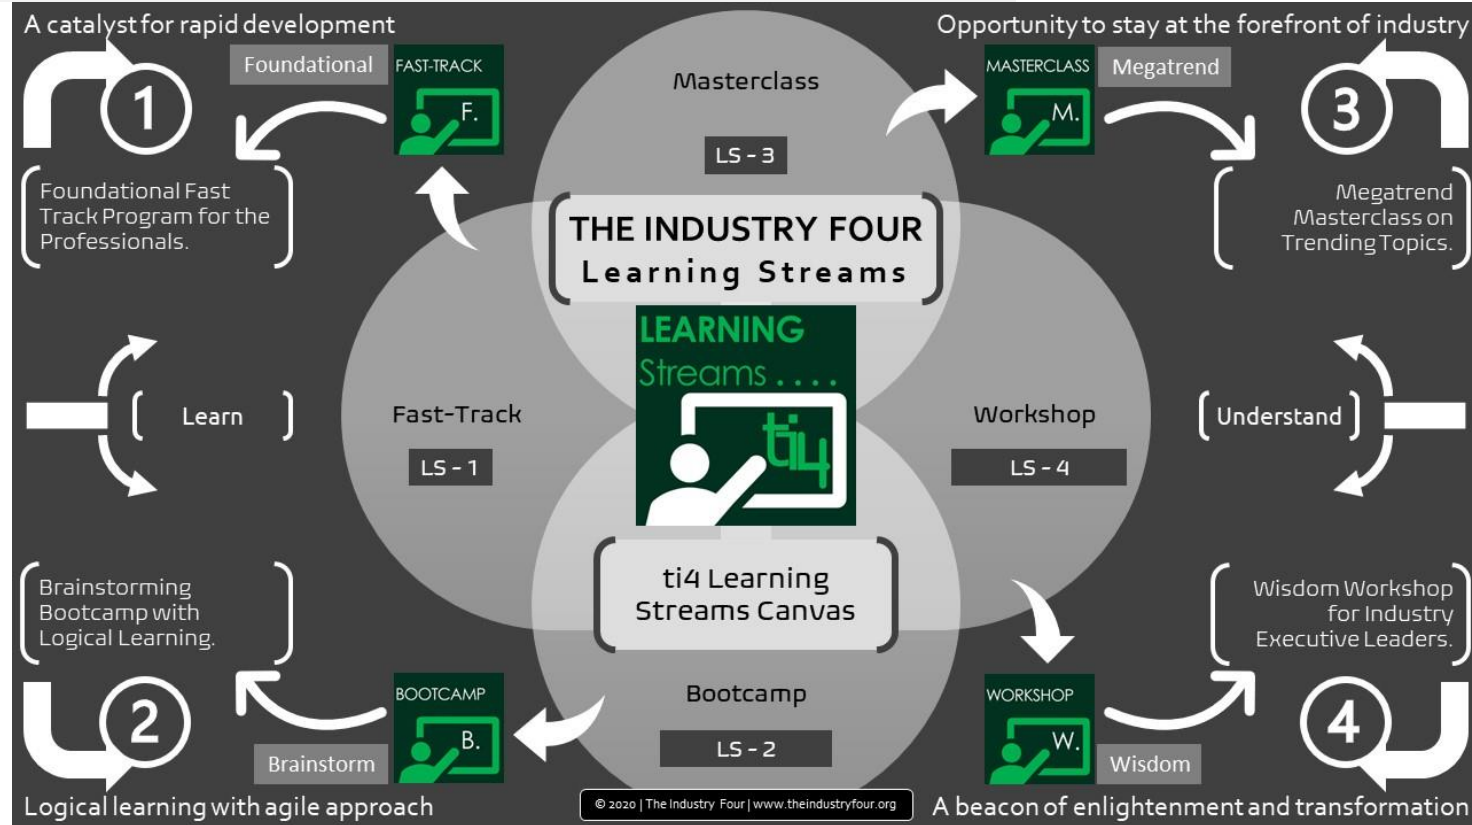

Our Learning Streams are the way to execute our training programs to deliver our training products. Exploring diverse learning streams empowers individuals to broaden their knowledge, skills, and perspectives, fostering continuous growth and adaptability in an ever-evolving world. Following are our four learning Streams.

■ **Fast-Track** - Foundational Fast Track Program for Professionals.

■ **Bootcamp** - Brainstorming Bootcamp with Logical Learning.

■ **Masterclass** - Megatrend Masterclass on Trending Topics.

■ **Workshop** - Wisdom Workshop for Industry Executive Leaders.

PATH OF PROGRESSION

The mechanism for our Continuous Improvement

■■■■

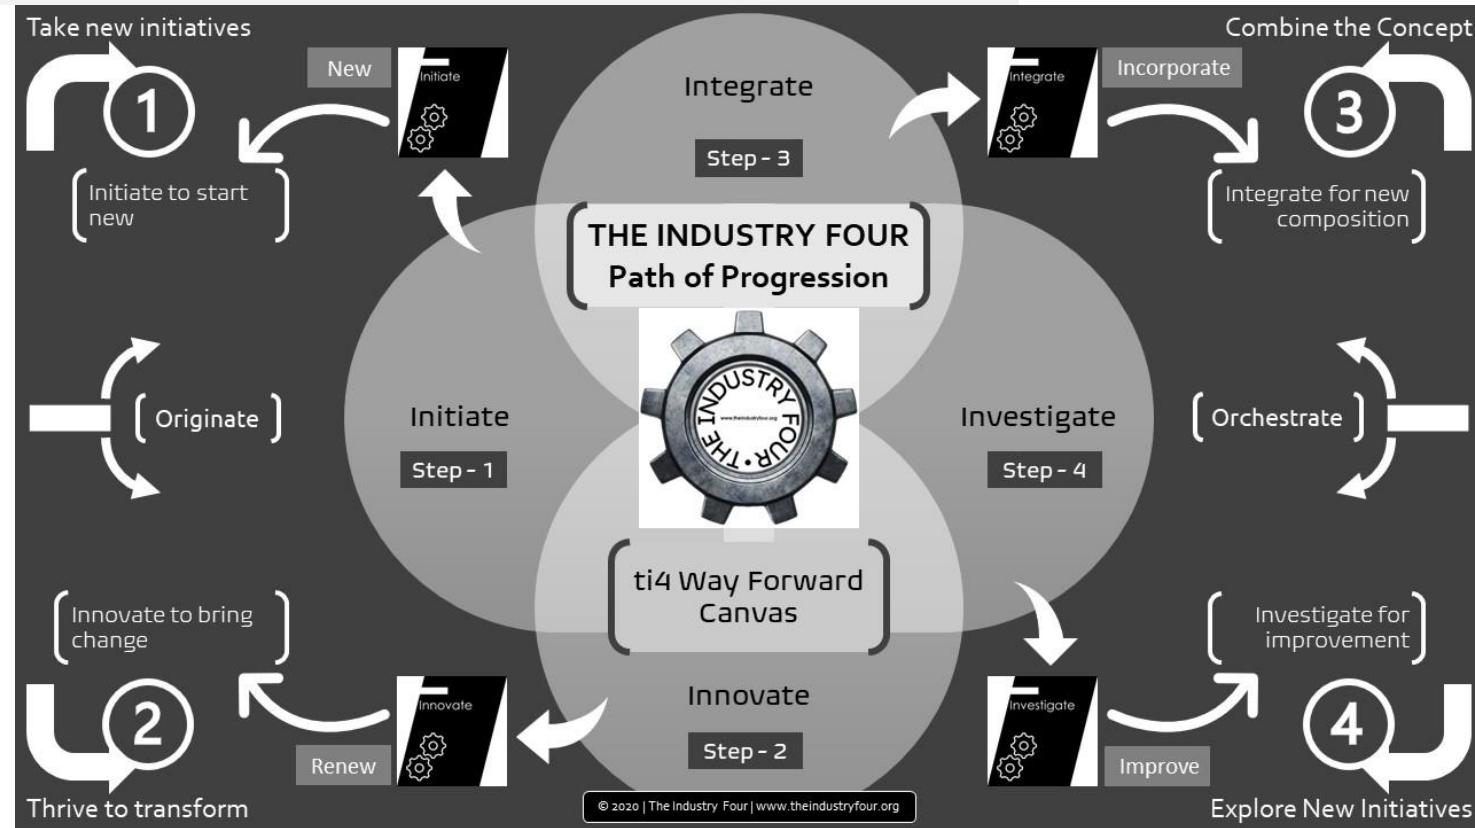

Our Path of Progression is characterized by our initiative to start a new, our commitment to innovate and drive change, our ability to integrate new configurations, and our dedication to investigating for continuous improvement. Following are the four steps of our progression path and way forward for our continuous improvement.

■ **Initiate** – Initiate to start new.

■ **Innovate** – Innovate to bring change.

■ **Integrate** – Integrate for new composition.

■ **Investigate** – Investigate for improvement.

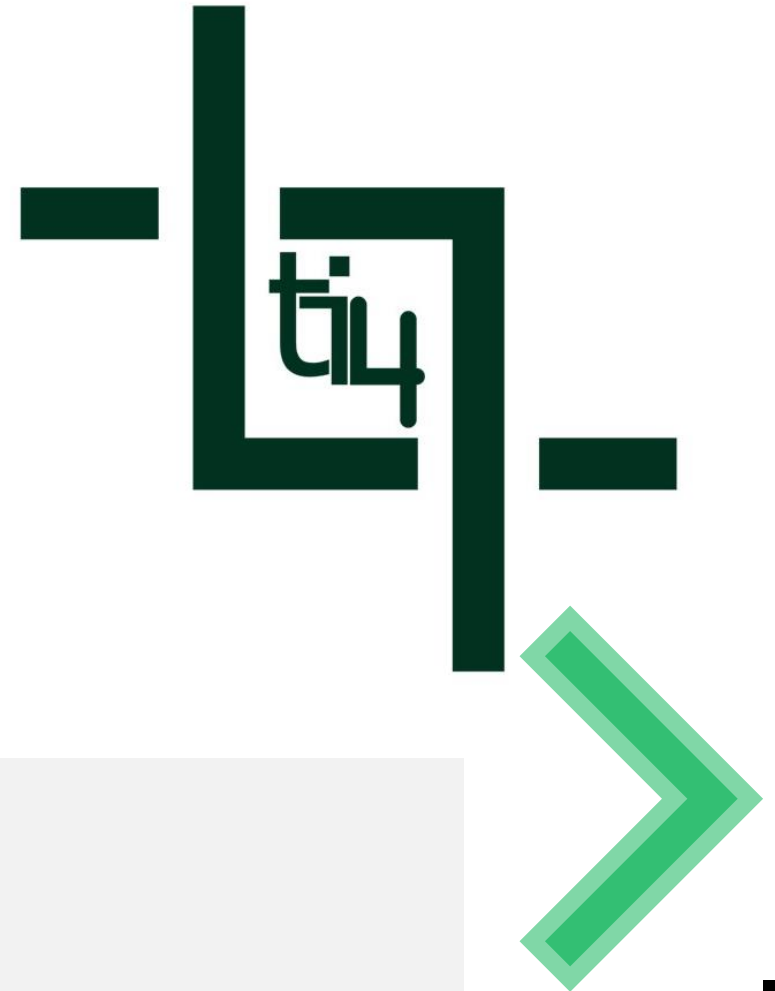

CONNECT

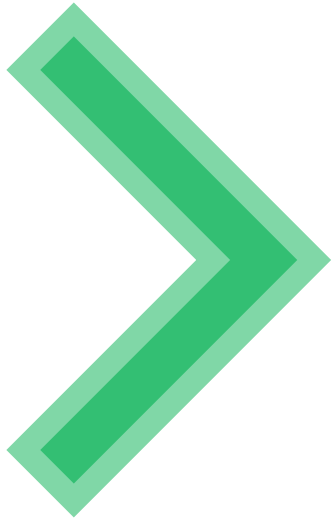

Collective Opportunity Network to Navigate and Explore the Common Target.

Excellence in education empowers young individuals for personal and professional growth, which in turn positively impacts national economies. Aligned with this goal, we are deeply committed to serving industry and society through educational initiatives. To achieve this objective, we regularly undertake diverse initiatives, including our Consulting & learning services and CSR programs. **CONNECT - Collective Opportunity Network to Navigate and Explore the Common Target**, is one of our flagship initiatives that aligns with our corporate social responsibility objectives.

We invite industry, government organizations, and educational institutions to join our CONNECT Program, where we conduct interactive workshops and training sessions to prepare staff and students for the professional world. The Industry Four CONNECT Program operates across two distinct Collective Opportunity Network areas: one tailored for industrial and government organizations, and the other focused on educational institutions.

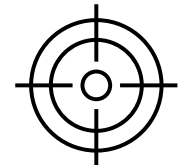

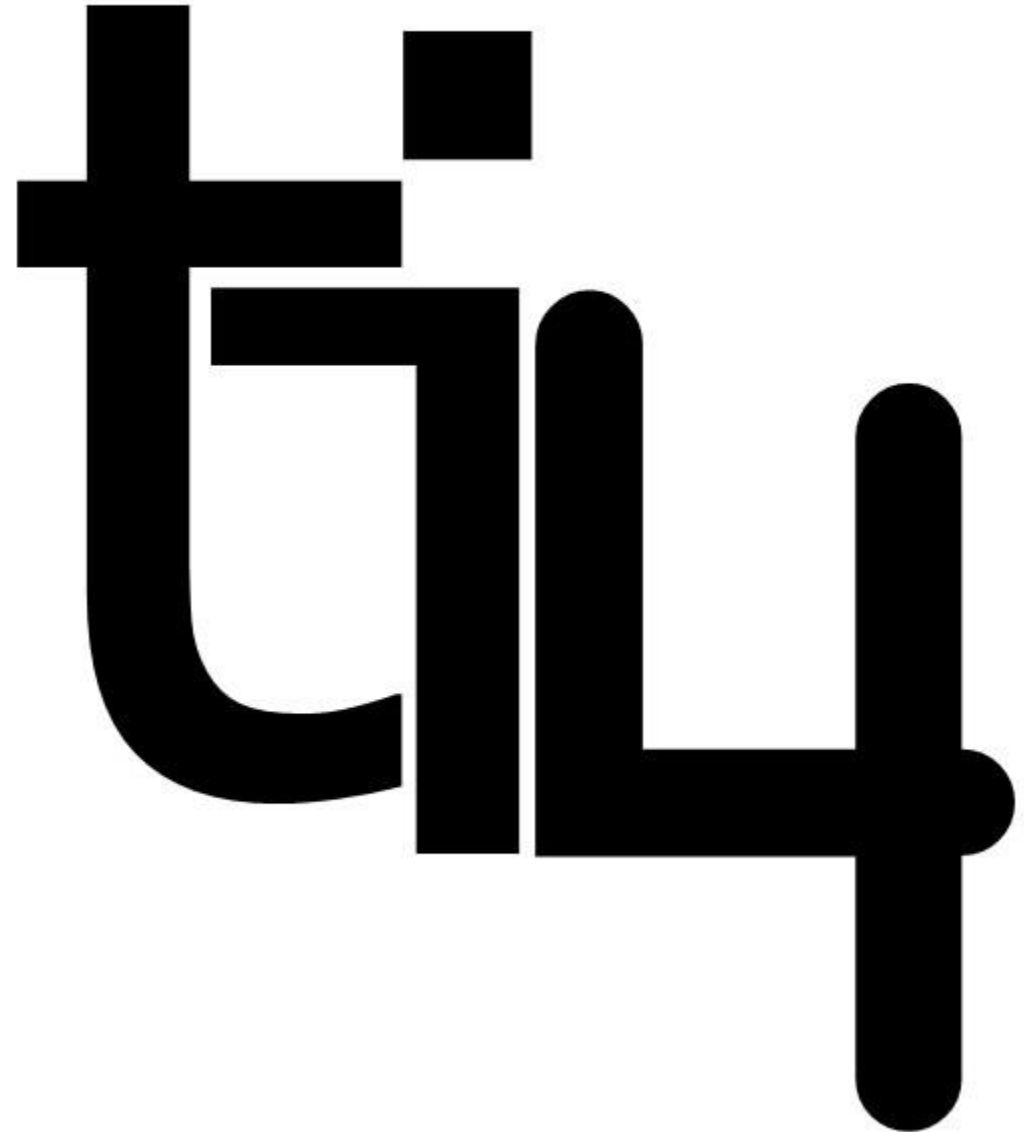

For more information or to express your interest in joining CONNECT, please visit our dedicated webpage for CONNECT Program at (<https://theindustryfour.org/connect>) or contact us / reach out to us at (connect@theindustryfour.org).
