Have you done your Monthly Brake Adjustment ? If yes, list the unit number(s) it was done for and the date it was done: Unit # \_\_\_\_\_ Date: \_\_\_\_\_

## MAG CARRIERS MONTHLY EQUIPMENT CHECKLIST

MONTH \_\_\_\_\_ TRUCK UNIT# \_\_\_\_\_ TRAILER UNIT # \_\_\_\_\_

MAG Carriers requires steer tires to be replaced when the lowest point on the tire is a 5/32: all other tires are required to be replaced when the lowest point is at 3/32. Our minimums are slightly higher than the DOT. This is to ensure the tire is replaced before it becomes a problem.

I check my tires during pre and post trip inspections and at this time all of my tires meet the minimum requirements as listed above. \_\_\_\_\_(initial)

Minimum brake measurement requirement is 8mm, 12/32 if you are using the gauge MAG Carriers provided. You need to subtract 5/32 from the measurement to account for the metal lining.

I check my brakes during pre and post trip inspections and at this time all of my brakes meet the minimum requirements as listed above. \_\_\_\_\_(initial)

Current Reefer Engine Hours \_\_\_\_\_ Reefer Engine Hours at Last Service \_\_\_\_\_

\*reefer units need to be serviced every 1500 hours, and belts need to be replaced every 3000 hours.

### Truck Double Check!!

The following are items frequently cited for violations on roadside inspections, are yours in good shape?

Pigtail: Y\_\_\_ N\_\_\_ Blinkers: Y\_\_\_ N\_\_\_ Headlights: Y\_\_\_ N\_\_\_ Mirrors: Y\_\_\_ N\_\_\_

Wipers: Y\_\_\_ N\_\_\_ Hoses(free of kinks, no chaffing or rubbing): Y\_\_\_ N\_\_\_

### Trailer Double Check!!

The following are items frequently cited for violations on roadside inspections, are yours in good shape?

Walls: Y\_\_\_ N\_\_\_ Floor: Y\_\_\_ N\_\_\_ Tandems sliding/greased: Y\_\_\_ N\_\_\_

Wheel seals intact, not leaking: Y\_\_\_ N\_\_\_
