

TEGAN TURNER

ACTRESS & MODEL

PROFILE

During my experience so far, I have crossed the barrier between production to talent through some small roles in films and I am always looking for new opportunities. As a well experienced member of the Art Department, I have gained developed my on-set etiquette as well as a deep understanding of character development skills. My playing age is between around 15-30 as with make up, I can look older but my blue eyes and freckles often mean I can play younger roles with ease.
