- CONTINUOUS Soft Water 24/7**
- ✓ Advanced Metered Valve
 - ✓ Smart Logic Controller
 - ✓ High Efficiency
 - ✓ Twin Tank Design
 - ✓ Soft Water Regeneration

The twin-tank design provides a continuous supply of soft water, backwashing without going offline or without interrupting your supply of soft water.

The flow meter measures water usage as low as 0.25 gpm with watch-like precision, regenerating only when necessary, resulting in less waste and greater savings.

Uses only soft, conditioned water to clean itself, which prolongs the life of the water softener.
