

TRIPLE TREAT[®]

Signature

Safeway Water[®]

WATER • HEALTH • LIFE

Are you dealing with these Water Problems?

SCALE - More than 85% of American homes have hard water. Individually, the problems may not seem that big, but year after year they can add up to be very costly!

CHLORINE - Chlorine is often added as an inexpensive method to control bacteria, most viruses and some protozoa that may be picked up, through the miles of underground pipe.

Did you know?
A ten min shower will expose you to 8X as much chlorine as a glass of water

How much Scale in your pipes?

Number of People _____ **X** _____ **X** **2.74**

Pounds of Dissolved Rock Annually

The unhealthy side of chlorine, The unhealthy side of chlorine, disinfection by-products (DPB). Major studies have linked DPB's like Trihalomethanes and Haloacetic Acids to increased health problems:

21% INCREASE IN BLADDER CANCER

1992 Medical College of Milwaukee, WI

38% INCREASE IN RECTAL CANCER

1992 Medical College of Milwaukee, WI

5X HIGHER RISK OF DEVELOPING ASTHMA

2008 Catholic University of Louvain, Belgium

Association

**Advanced
Metered
Control Valve**

- + Compact design
- + Demand regeneration
- + Smart logic controller
- + High efficiency

B UV STERILIZER

The non chemical type sterilization is the ideal way to complete your water system, protecting your family from chlorine resistant bacteria and the unknown water quality that comes from random boil water alerts.

**UV TREATS BACTERIA,
VIRUSES, AND CYSTS**

C QUICK CHANGE RO SYSTEM

**quik
CHANGE
RO SYSTEM**

Removes and reduces the things you don't know is in your water before you drink it.

- ✓ Lowest price per gallon
- ✓ Dedicated faucet
- ✓ Better tasting water
- ✓ Fresher, crisper tasting beverages
- ✓ Safer, healthier
- ✓ MORE delicious water!

Stage 1 - Chemical Reduction

Water enters from the top of the tank and flows through our special blend of NSF certified catalytic coconut shell carbon and redox media. Harmful chemicals such as VOC's, pesticides, industrial chemicals, benzene, ethyl bromide, cleaning compounds, cresol, chemicals used in fertilizers and some heavy metals are reduced.

Stage 2 - Filtration

Specialized catalytic coconut shell carbon significantly reduces chlorine tastes and odors through adsorption.

Stage 3 - Water Softening

Calcium, magnesium and other hard water minerals are removed from your water to provide soft water throughout the house.
