# Are you dealing with these Water Problems?

**SCALE - More than 85% of American homes have hard water.** Individually, the problems may not seem that big, but year after year they can add up to be very costly!

**CHLORINE** - Chlorine is often added as an inexpensive method to control bacteria, most viruses and some protozoa that may be picked up, through the miles of underground pipe.

  
**Did you know?**  
A ten min shower will expose you to 8X as much chlorine as a glass of water

## How much Scale in your pipes?

Number of People \_\_\_\_\_ **X** \_\_\_\_\_ Grains **X** **2.74**

Pounds of Dissolved Rock Annually

**The unhealthy side of chlorine**, The unhealthy side of chlorine , disinfection by-products (DPB). Major studies have linked DPB's like Trihalomethanes and Haloacetic Acids to increased health problems:

**21% INCREASE IN BLADDER CANCER**

1992 Medical College of Milwaukee, WI

**38% INCREASE IN RECTAL CANCER**

1992 Medical College of Milwaukee, WI

**5X HIGHER RISK OF DEVELOPING ASTHMA**

2008 Catholic University of Louvain, Belgium
