INTERNATIONAL *OF THE LIVING*
Holocaust Remembrance Day
April 29, 2022
Auschwitz-Birkenau, Poland

I stand here, Ahmed Obaid Al Mansoori, as a faithful Muslim, a humble servant of God, and a devout follower of his last Prophet, the Honorable Quran and the Sunnah of his last Prophet, peace be upon him and upon all the prophets. I stand here solemnly, as together, we look into the very eyes of our Jewish brothers and sisters. I stand here in the dark, inspired, encouraged. I stand here today, knowing the darkness of the past and we will overcome a future of joy and blessing. I stand here today, to ensure a future of death for all peoples, nations and countries. The train tracks we see, were a junction of death. This generation, stands at the same junction of death. BUT we choose to protect life and prevent these atrocities from ever happening again, we choose life. We choose the Children of Abraham, brought together by the Abraham Accords - we say, Never means Never. In memory of the victims of the Holocaust be a blessing to all. It is as if he saved the lives of all people.

Gravity of these times should be apparent': Eyre

RYAN TUMILTY

OTTAWA • Chief of Defence Staff, Gen. Wayne Eyre, told MPs that Russia and China consider themselves to be at war with the West and Canada must rise to meet this challenge.

Eyre was meeting with MPs at the Commons standing committee on national security to talk about the threat Russia poses to Canada.

He said Russia and China don't differentiate between near and far and are actively seeking to challenge the West.

"Russia and China are not just looking at regime survival but regime expansion. They consider themselves to be at war with the West," he said. "They strive to destroy the social cohesion of liberal democracies and the credibility of our own institutions to ensure our model of government is seen as a failure."

Eyre said the threat is broader than the war in Ukraine, but a systemic effort to change the way the world has been structured.

"The rules-based international order, which has underpinned global stability, and the liberal proscriptions that have faltered in the face of the Chinese and Russian aggression, are under threat."
