POWER. OUR LIVES DEPEND ON IT.

From essentials like heating, cooling and lights, to daily necessities like cooking, laundry and the kid’s bath-time, our lives run on electricity. Unfortunately, our modern lifestyles are in ever-greater jeopardy, power outages are occurring more frequently than ever and lasting longer, with devastating effects. Protect your home and family with a Generac automatic standby generator and keep life going without disruption.

IMAGINE YOUR LIFE WITHOUT POWER.

• Refrigeration/freezer for food and medicines
• Furnace
• Air conditioning
• Lighting – inside and outside
• Clean water for drinking and bathing
• Sump pump
• Kitchen appliances
• Contact with the outside world; Internet, cell phone chargers, TV, radio and more
• Washing and drying clothes
• Security system
• Garage door opener
• Fans
• Medical equipment
• Charging power tools for use during the emergency and post-outage cleanup
• Monetary loss from temporary relocation, hotel costs, dining out, property damage, etc.

THE GENERAC PROMISE

Generac invented the home standby generator category in 1977, and we still engineer and build them right here in Wisconsin. With over a million square feet of vertically integrated manufacturing and distributing space we are able to meet the needs of our customers.

Power outages do not always occur during normal working hours; that is why we have implemented a 24/7-365 customer care call center right here in Wisconsin. That means we are standing by 24/7, every minute of every day to answer your calls.

We are proud of our innovative product design, high quality and first-class reliability so that is why we stand behind them with a strong 5-year limited warranty.

We promise to listen to our customer’s needs and continue to innovate with new solutions, like our new Mobile Link™ cellular monitoring system, so you’ll always know the status of your generator, no matter where you are.

Generac’s standby generators provide the automatic backup power you need to protect your home and family during a power outage. Connected to your existing LP or natural gas fuel supply, it kicks in within seconds of determining power loss—automatically—and runs for as long as necessary until utility power returns. Generac’s Guardian Series lets you control your power, so life can go on.

Discover how to take control of your power needs. Schedule your in-home consultation today.

REAL
GENERAC
OWNER
IT’S ONE OF THE BEST INVESTMENTS I’VE EVER MADE IN THIS HOUSE.
- David Panzarella

THE #1 NAME IN HOME STANDBY POWER
Consumers choose Generac automatic generators not only for their proven reliability, but also for the innovative features engineered with home and business owners in mind.

FEATURES*:
- Generac OHVI® Engine
  Purpose-built for generators to withstand extended run times
- True Power™ Technology
  Utility grade power
- RhinoCoat™
  Tough, durable enclosures
- Convenient Installation
  Certified for optimal placement 18” away from a building
- Quiet-Test™
  Quiet operation during weekly exercise *16 kW & 22 kW only
- Mobile Link™
  Remote monitoring for added peace of mind *sold separately
- Evolution™ Controller
  Smart, user-friendly controls
- DPM™ Technology
  Intelligent power management allows for more coverage with a smaller generator
- Fuel Options
  Ability to run on natural gas or LP fuel
- 5-Year Limited Warranty

How it Works
If your power goes out, your generator comes on—automatically. It’s really that simple.

The generator system consists of a generator and transfer switch. The generator sits outside of your home or business just like a central air conditioner, while the transfer switch is located next to the main breaker box, and in some cases replaces it entirely.

1. Utility power is lost.
2. Generator automatically detects a problem.
3. Generator automatically turns on.
4. Electricity is automatically restored.

Sizing a Generator Based on Your Needs
By sizing your generator according to your needs instead of your home’s square footage, you won’t overspend or be surprised by inadequate coverage.

- Power it all, all the time
  When the power goes out, everything comes on and stays on.
- Smart power where you need it
  Power management gains more coverage from a smaller generator.
- Power just the basics
  Economical solutions cover the basics, such as lights and refrigeration.

The #1 Name in Home Standby Power

YOUR GENERATOR EXPERTS
As experts in electricity, we are the preferred professional for backup generator installation. Our extensive knowledge of electrical systems allows us to provide the most cost effective installation that is completed correctly the first time. We are able to provide you with an in-home assessment that will correctly size the generator to your needs, not just by the size of your home. We are standing by with the solution to control your power in the event of an outage so your life can continue uninterrupted.
