We booked Chris for our wedding just over a week ago and couldn't be happier with the experience. We and our guests were blown away by Chris and how his magic left us speechless on every occasion. Chris also helped with organising our guests and brought a public address system for us both to use. You will not be disappointed if you book Chris for your wedding. Thanks Chris :-)

WEDDING MAGIC - HELPING MAKE YOUR DAY UNFORGETTABLE

Every wedding is unique and different - help make yours stand out for the right reasons. Hiring a magician for your wedding will help your day stand out from the others. It will also help give you peace of mind that your guests are being entertained while you're enjoying your day. Depending on when you hire a magician you know that during that time your guests will be entertained, brought together and have a talking point.

So when's the best time to hire a magician? Honestly whenever suits your needs, but the most popular time is the drinks reception. While the happy couple have their photos taken the guests arrive at the reception awaiting their return, normally sat in small groups, not knowing each other. That's where I come in, interacting with everyone, bringing groups together, blowing their minds and give them all something to talk about.

The wedding breakfast, during the meal and the lead up to the speeches I work around the waiting staff to ensure every table gets their magical moments creating a buzz between courses and a talking point for all guests with a special show for the top table. There's also a small show before the speeches for all the guests to enjoy and gets everyone involved.

Room turnaround / cocktail hour, this is quite often the downtime of all weddings, people have just eaten and there's an hour or two before the evening guests arrive and the evening function starts. It's a great time for me to come along and keep the energy levels high and entertain everyone before the evening starts.

The evening function, a busy time for the happy couple so let me worry about your guests so you can enjoy your evening. Walk around magic for all the groups and people as they come along for the evening is a great way to know that you and your guests will have a good time.

Chris performed at our Wedding this October, and he was amazing! He entertained guests between the wedding ceremony and us arriving at the reception venue, which was great! It took a weight off our minds as we didn't have to worry about guests being bored whilst the newlyweds were off getting photos done! Everyone loved the close up magic and to this day are still asking me how on earth Chris does it... which I ask myself all the time as I don't know 😂 We had more of a group show after the Speeches whereby family and friends were involved, and it was just great! Chris is so much more than a Magician, he is charming and funny which your guests will love too! 🥰

WHY ME? WHY A MAGICIAN?

Firstly every time I'm asked to perform at someone's wedding I feel honoured that you have put your trust in me to entertain your close friends and family on the most important day of your life. My mixture of magic and mindreading is suitable for all ages and will blow your mind and help make your day even more memorable and a talking point for years to come. With a special gift for the happy couple to help keep those magical moments remembered forever. In the UK there is roughly 270,000 weddings each year. I've been lucky enough to be a guest at many and a performer at even more, having a magician at your wedding is still unique and offers peace of mind for the happy couple, safe in the knowledge that your guests are entertained during downtime on your big day. Making a magical day even more magical and guaranteed talking points and mind blowing fun. Additional entertainment is normally looked at as an additional thought if there's still space in your budget. This shouldn't be the case, we've all been to weddings where the happy couple have their photos taken and everyone is standing around talking in their small groups, not knowing each other. Or that last table with a couple of single friends on and that estranged family member you had to invite, that's where having a magician, creating something everyone experiences together and can talk about will help make your day even more memorable (as well as fun and entertaining).
