

Similar but NOT the Same The Ultimate Vocabulary Class.

Have you ever been in a situation that you signed the wrong sign, or you are scared to sign a sign because you don't want to be embarrassed if you sign the incorrect one? Well, this class helps solve that problem. Each week I teach you between 40 to 60 signs that are signed very similar but not the same. In total each two-week session you will learn over 80-120 signs that are Similar but Not the Same.

If you want to expand your ASL vocabulary and knowledge quickly or want to understand the similarities that many ASL Signs have, then this is the class for you. Each session is stand alone. You don't have to take one session to benefit from another. A common mistake made by signers is DATE vs MEET. What if you are trying to sign NICE TO MEET YOU and instead you

say NICE TO DATE YOU? Awkward.... to say the least. The only difference between these two words is the handshape. DATE is signed with a "D" handshape and MEET is signed with a "1" handshape. Another great example is INSURANCE and INFECTION. The only difference is your NMM (facial expression). You will be amazed how many signs are signed so closely but are an entirely different sign. Every class has new words. Each session is different. The more sessions you take the more quickly you will learn nuances of ASL vocabulary.

Thursday nights 6-8:30pm
\$60

Upcoming Sessions:

(each session is two weeks)

June 19 & 26 RSVP by: 6/16/25

July 3 & 10 RSVP by: 6/30/25

July 17 & 24 RSVP by: 7/14/25

You do not need to take all parts to benefit from this class.

Prerequisite: None

Community Based Signs: Basic Medical, Public Service, Technology and more

This is a must take class for everyone. Even if you took Basic Medical, Technology, Public Services or Volunteer signs this is a must take again class. This is not the same class as before. **So much new material added.** You will learn Basic Medical signs, community service/ public service signs, technology, social media and so much more. You will learn imperative vocabulary for communicating in ASL. We will learn vocabulary, through scenario, games and role-playing conversations. Some of the concepts and signs taught are medical terms such as help, Medical, medicine, hurt, sick, ambulance, body parts, hospital and more. Some public service signs taught will be in the areas of Social Workers, Teacher, volunteer signs like animal shelter, museums, food banks and Mental Health. This is just the tip of the iceberg of what we will cover in this class.

Wed., July 9-Aug 13, 2025,
6pm- 8:30pm \$150

Prerequisite: None
