

## THE RESIDUE OF VICTORY | PASTOR ERIC

### **The Residue of Victory: Finding Strength in Life's Battles**

Life is full of battles and challenges, but as believers, we have hope through Jesus Christ. While we may face difficulties, we can be confident in our victory through faith.

## **What Does Victory Look Like in Our Christian Walk?**

True victory comes from trusting God and cutting off things that are unlike Him. We must be willing to sever ties with unrighteousness, ungodliness, and sin. Just as David had to defeat enemies on all sides, we too must confront and overcome obstacles that try to keep us from God.

## **How Do We Obtain Victory Over Life's Challenges?**

To achieve victory, we must:

- Trust God completely
- Be on the offensive against spiritual enemies
- Cut ties with things that hinder our relationship with God
- Repent and turn back to God when we stray
- Remember that God preserves us wherever we go

## **What Are the Enemies We Face?**

Our real enemies aren't people - they're the things that come against God and try to keep us from Him:

- Sin
- Depression
- Anxiety
- Fear
- Doubt
- Addiction
- Insecurities

## **How Does God Help Us in Our Battles?**

### **God provides:**

- Protection in every battle
- Strength to overcome
- Preservation through difficulties
- Victory over enemies
- Blessings after the battle

*Just as David received spoils after his victories, God provides blessings after we overcome challenges through faith.*

## **Life Application**

This week, examine your life and identify areas where you need victory. Ask yourself:

What "enemies" am I currently battling that are keeping me from fully trusting God?

What relationships or habits do I need to cut off that are hindering my spiritual growth?

In what areas of my life do I need to stop making excuses and start taking spiritual authority?

**Challenge:** Choose one area where you've been struggling and make a commitment to face it head-on with God's help. Remember - you are anointed and set apart to live in victory. Take time each day this week to declare God's promises over that situation and actively work to cut off anything that's keeping you from experiencing complete victory.
