

Dear Valued Customer,

First, we want to thank you for your continued business!

We have security cameras in place at the gate that will recognize your vehicle's plate numbers! This is for your vehicle's security!!

We are asking you to **email LaVonne** at LaVonne@AffordableRVstoragellc.com with **two** vehicles that you want to register with us. Probably the vehicle you pull your stored vehicle if needed and another (the gate key pad will still operate using your space number and the last 4 of your cell number registered with us).

Also, we will send invoices by email only. We do not have everyone's email or possibly not accurate in our system. If you do not have email just let us know and we can still mail a paper copy.

If you can also include the **email address** you would like to receive your invoice when you are due for payment on that same email with your vehicles plate numbers for the camera recognition that would be great!

We appreciate your response as quick as possible as we are trying hard to get this in our system right away!!

WE continue to make improvements and try and make our storage lot great for our loyal customers!

We also love your friends and family referrals!

Thank you!

Sincerely,

LaVonne and Steve Mrazik

Owner/Manager
