

Red River Groundwater Conservation District

Application for Well Modification

Rule 3.9 of the District's Temporary Rules requires that the owner of a well must file an application to amend an existing well registration and obtain approval by the District prior to engaging in any activity that would substantially change the information contained in the existing well registration. This can include (but is not limited to): altering the size or capacity of a pump or well, changing the type of use of the water, or changing the location of use of the groundwater. **Complete one application for each well. A Notice to Proceed must be issued by the District prior to construction of the well beginning.**

Date _____
