- (1) RealAVM™ is a CoreLogic® derived value and should not be used in lieu of an appraisal. This represents an estimated sale price for this property. It is not the same as the opinion of value in an appraisal developed by a licensed appraiser under the Uniform Standards of Professional Appraisal Practice.
- (2) The Confidence Score is a measure of the extent to which sales data, property information, and comparable sales support the property valuation analysis process. The confidence score range is 50 100. Clear and consistent quality and quantity of data drive higher confidence scores while lower confidence scores indicate diversity in data, lower quality and quantity of data, and/or limited similarity of the subject property to comparable sales.
- (3) The FSD denotes confidence in an AVM estimate and uses a consistent scale and meaning to generate a standardized confidence metric. The FSD is a statistic that measures the likely range or dispersion an AVM estimate will fall within, based on the consistency of the information available to the AVM at the time of estimation. The FSD can be used to create confidence that the true value has a statistical degree of certainty.

(1) Rental Trends is a CoreLogic® derived value and should be used for information purposes only.

(2) The FSD denotes confidence in an Rental Trends estimate and uses a consistent scale and meaning to generate a standardized confidence metric. The FSD is a statistic that measures the likely range or dispersion a Rental Amount estimate will fall within, based on the consistency of the information available to the Rental Amount at the time of estimation. The FSD can be used to create confidence that the true value has a statistical degree of certainty.
