Taste Like a Master

New mouth blown stem glasses by Italesse, like you've never seen before!

Italesse presents a renewed series of sensorial stem glasses realized in mouth blown and handcrafted glass. Extremely light, elegant and emotional, like never before!

Extraordinary elegance.

Thanks to their unique and exceptionally thin shapes.

Unique technical performances.

That are able to enhance the organoleptic sensations of wines in the tasting experience thanks to the studies carried out through the Senses project.

Incredible elasticity.

Capable of creating an emotional user experience by combining tactile, visual, olfactory and gustatory sensations during the tasting experience.

Record-setting lightness.

Our glasses are ~20% lighter than other mouth blown glasses on the market.

Unparalleled resistance.

For this type of stem glasses, more resistant than 'ultralight' machine-made stem glasses on the market.

Competitive prices.

Thanks to the investments on noble technologies such as mouth glassblowing and handcrafting of the stem glasses.
