Manufacturer Service Campaign issued

- Campaign #P0A08 MUR QST BRK FLD FLH NTB21047
- Status: Remedy Available

Locate an authorized Nissan dealer near you to obtain more information about this campaign

🔗 **Learn more about this campaign**

Description: A potential chemical reaction between the valve surface coating (Chromate layer) and the DOT3 brake fluid may cause a Gel to form around the normally closed (NC) valve. In some cases, it can cause the NC valve to be stuck open. The NC valve inside the ABS actuator may stick open and direct additional brake fluid flow to a reservoir inside the ABS actuator. As a result, the brake fluid pressure may fluctuate and the customer may experience increased brake pedal travel.

Customer may experience increased brake pedal travel (soft brake pedal) in the event of ABS activation. Normal braking is unaffected.

Remedy: All affected vehicles will have the brake fluid replaced (DOT3 to DOT4 fluid). Dealers will inspect the ABS actuator using Consult. If needed, the ABS actuator will be replaced. An owner s manual insert will be provided to customers with instruction to use DOT4 brake fluid to prevent the subject condition from reoccurring, and the brake fluid reservoir cap will be changed. This service, which is conducted at no charge to you for parts and labor, could take up to four and a half (4.5) hours to complete depending on the inspection results. However, your Nissan dealer may require your vehicle for a longer period of time based upon their work schedule or if the ABS actuator requires replacement.

Glossary

Damage Indicator

Damage can be a result of many different types of events. Examples include contact with objects (other cars, trees, traffic signs, road debris, etc), vandalism, or weather-related events. Not every damage event is reported to CARFAX. As details about the damage event become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 5/22/26 at 7:56:11 AM (CDT). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

Damage Severity

Damage events result in one of the following severity levels:

- Minor: Generally, minor damage is cosmetic (including dents or scratches), may only require reconditioning, and typically does not compromise a vehicle's operation and/or safety.
- Moderate: Moderate damage may affect multiple components of the vehicle and may impair the vehicle's operation and/or safety.
- Severe: Severe damage usually affects multiple components of the vehicle and is likely to compromise the vehicle's operation and/or safety.

CARFAX recommends getting a pre-purchase inspection at a certified collision repair facility.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Service Campaign

Automobile manufacturers issue a service campaign to address product technical issues that may not be related to safety or emissions standards. These issues are typically customer satisfaction initiatives.
