Without the community's support, Dimensions Sciences’ mission to promote diversity in the sciences wouldn’t be possible. Companies, foundations, and individuals can contribute to our work.

Support early-career scientists
OUR MISSION

Our mission is to assist early-career scientists from underrepresented communities through mentoring programs and scholarships to promote diversity in the sciences to further equity, international collaboration, and innovative research.

Dimensions Sciences was formed in November 2019 and is a registered 501(c)(3) nonprofit organization. In the past two years, Dimensions Sciences has developed a series of programs to support underrepresented scientists in STEM fields. The goal of this effort is to support and grow our programs and support operations to promote sustainability.
The Platinum Seal of Transparency is the highest level of recognition offered by GuideStar, the world’s largest source of nonprofit information. By sharing metrics that highlight the progress we’re making toward our mission, we’re helping our donors directly see the impact of donations to move our organization forward.
