For the first time in SABA history a dinner meeting was held in June. The keynote speaker for the evening was Gary Sharp from the Canadian Home Builders Association.

Gary holds the position of Director of Renovator Services and offered attendees insight into the new aging in place CAPS certification for renovators and builders. CAPS has been adopted from the US and a made for Canada program established.

Watch for
SABA's
revamped
website!

sabaconnect.ca

NEW WEBSITE FOR SABA

In August, SABA will launch a revamped website for members and the public. Easy to use, interactive with on-line membership applications, event registration, member directory and newsletter library to name a few features. Renamed sabaconnect.ca the existing site will also point to the new site, so no matter what you have in your url history, you will get to the new site.

sabaconnect.ca was chosen as a result of the growing number of diverse firms that connect members of SABA together in business.

PROMPT PAYMENT AND ADJUDICATION THE NEW CONSTRUCTION ACT

You may have heard a lot lately about new legislation effective October 1, 2019 that will affect the way you operate your business. If you happened to miss the dinner meeting in May with Kyle from Advocates LLP, we are currently planning a 1/2 day session with Lerner LLP in late August or early September. Keep an eye open for this important event that will give you some tools you need to be successful under the new laws regarding payment timelines and dispute resolution through adjudication.
