INFO ABOUT OUR PRODUCT & PROCESS

- 45+ ready to make profiles to choose from. (Dimensions cannot be changed) ▪
- All of our stone surrounds & floor hearths are in one piece. (Locally and out of state)
Therefore, no more aesthetically displeasing joints for your mantel. ▪

▪ Non-combustible ▪

▪ Stain resistant. ▪

▪ Compatible with gas, electric and wood burning firebox inserts. ▪

▪ Made from our own engineered stone. ▪

▪ 12,000 PSI compressive strength. ▪

▪ The weight of our mantel surrounds vary between 165-290 pounds. ▪

▪ We manufacture, install (NJ), and deliver (Nationwide) our product. ▪

Color options:

▪ White (Smooth or limestone finish) ▪

▪ Ivory (Smooth or limestone finish) ▪

▪ Sandstone, French limestone, and Greystone ▪

▪ (Ivory, Sandstone, French limestone and Greystone have a clear or enhancer sealer option) ▪

“Sandstone, French limestone, and Greystone have more natural color variation than our white/ivory colors.”

ONE PIECE CAST STONE SURROUNDS

- All of our stone surrounds & floor hearths are in one piece (Locally and out of state).
 - Non-combustible.
 - Stain resistant.
- Compatible with gas, electric, and wood burning firebox inserts.
 - Made from our own engineered stone.
- 12,000 PSI compressive strength (Precast typically averages between only 4,000-5,000 PSI).
- Surrounds are a fraction of the weight to that of natural stone and generic precast concrete.
 - We manufacture, install (NJ), and deliver (Nationwide) our product.
 - 45+ ready to make profiles to choose from.
