Notes for Heinrich J. (Henry John) Hochrein:

Past and Present of Washtenaw County, Michigan by Samuel W. Beakes, Chicago: The S.J. Clarke Publishing Co., 1906:

Henry J. Hochrein, a member of the firm of Braun & Hochrein, contractors and builders of Ann Arbor, like many of his fellow townsmen, is of German birth and ancestry. He was born in Bavaria on the 3rd of May, 1870. His father, Michael Hochrein, was a baker and overseer on a nobleman's demesne. Subsequently he came to America and now makes his home in Ann Arbor. His wife, Mrs. Mary H. Hochrein, died in Germany when their son Henry was but five years of age. The other children of their family were: Ferdinand, who is now foreman of the Ann Arbor Gas Works; William, who is engaged in the plumbing business in this city; John, who also holds a position in connection with the gas works; and Mrs. Lena Kichenmeister, of Mount Clemens.

Henry J. Hochrein spent the first fourteen years of his life in the land of his nativity and then came to the new world, reaching Ann Arbor in 1884. For two years he was a student in the township schools, after which he began earning his own livelihood by working as a farm hand, being employed in that capacity for five years. On the expiration of that period he began learning the trade of a carpenter and builder, entering the employ of S. M. Braun in 1889. He soon mastered the business in principle and detail and continued working as a journeyman until 1897, when he was admitted to a partnership by Mr. Braun under the present firm style of Braun & Hochrein. This firm is well known in building circles in Ann Arbor and throughout Washtenaw county and many important contracts have been awarded them, which they have faithfully and efficiently executed. They were the builders of the Farmers & Mechanics Bank in 1900, remodeled the German American Bank in 1905 and built the Henry Douglas and many other fine residences in this city, which to-day stands as monuments to their enterprise and skill. Mr. Hochrein is

very thorough and painstaking in all that he does and his work has given uniform satisfaction, so that a liberal patronage is assured him.

In 1893 Mr. Hochrein was married to Miss Mary Heining, a daughter of Mr. and Mrs. John Heining, of Ypsilanti, and two children graced this union, Elsie and Oscar. Fraternally Mr. Hochrein is connected with the Maccabees and with the Home Guards of America, while in his church relations he is a German Lutheran. Having resided in Washtenaw County for twenty-one years, he is well known, while his many excellent traits of character, his loyalty in friendship, his progressiveness in citizenship and his trustworthiness in business life have made him highly respected.

Kurt Hochrein To Lead Innovation Collaboration At Dexter Research

Kurt Hochrein, the robotics executive who worked with 20th Century Fox to place Kawasaki Robots in the Steven Spielberg movie Minority Report, has been named Director of Customer Development for Dexter Research Center, Inc. Dexter Research is an industry leader in the innovative design and the volume manufacture of high quality, high output bismuth-antimony thin film and silicon-based radiation sensing thermopile detectors. "More important than helping to advance Tom Cruise's career, Kurt brings his knowledge of electronic, mechanical and software innovation collaboration to one of the most exciting technology enablers in the American economy," said Robert Toth, Jr, president of Dexter Research.

Previously Mr. Hochrein, an industry sales leader in robotics who developed accounts at Toyota, Honda, Nissan and Ford, also launched successful customer collaboration centers across the US and in Canada and Mexico. Mr. Hochrein holds a degree in economics from the University of Michigan and also has energy industry experience.

"I am delighted once again to be leading such an important innovation center," Mr. Hochrein said. "Dexter Research is already making our troops and pilots safer in oversea combat. We play a key role at exhaust emission testing centers, in greenhouse gardening and airplanes, in kitchen appliances and steel factories, ear thermometers and mine safety, weather forecasting and earth measurement. And we're making important contributions to the Mars missions. "But equally important, I believe that you will soon see Dexter Research detectors providing important foundations to industrial and residential control of greenhouse gases. We are also positioned to make important technology transfers to home fire safety, intruder security, and foreign-sourced energy reduction. No wonder our sales are up thirty-four percent in Q1 of this year," Mr. Hochrein said.
