

BURN BAN

IN EFFECT

6AM TO 6PM

MARCH, APRIL

MAY, OCTOBER,

AND NOVEMBER

The ODNR Division of Forestry offers these safety tips for burning debris outdoors:

- Know current and future weather conditions; have tools and water on hand; and never leave a debris burn unattended.
- Be informed about state and local burning regulations.
- Consult the local fire department for additional information and safety considerations.
- Visit the [Ohio Division of Forestry's website](#) and [firewise.org](#) for more information and tips on protecting your home and community.
- Consider safe alternatives for debris disposal, such as composting.
- If you choose to burn during unrestricted hours, use a 55-gallon drum with a weighted screen lid to provide an enclosed incinerator.
- Remember: "Only you can prevent wildfires!"
