**Eligibility** All dogs nine months of age or older are eligible to participate in Herding Trials and JHD. Dogs classified as Herding Dogs in AHBA are eligible for Herding Test HCT and may participate at six months of age or older. No dog may be entered in two classes on the same course with the same kind of stock under the same judge at any test/trial. Bitches in season shall run in drawn running order without adjustment.

**READ BEFORE SIGNING** In consideration for participating in an event sanctioned by the American Herding Breed Association (AHBA), I agree to assume all responsibility for any claim, loss or damage, of whatever kind or nature, whether to person or property, which may be caused at or near this event, either directly or indirectly, by me or the dog or dogs I have entered in or brought to this event. I further agree that I will hold the AHBA, RottiEwe Farm, Don and Tracy Parciak, its officers, directors, agents and members harmless and defend them from any and all liability for any injury, claim, damage or loss, of whatever kind or nature, whether to person or property, caused at or near this event, whether directly or indirectly, by me or any dog I have entered in or brought to this event. I agree to indemnify the AHBA, RottiEwe Farm, Don or Tracy Parciak, its officers, directors, agents or members for any loss, cost or expense including attorney's fees and costs, to which the AHBA, RottiEwe Farm, Don or Tracy Parciak, its officers, directors, agents or members might be subject as a result of any claim, suit, loss or damage caused in any way by any act or negligence on my part or on the part of any dog or dogs I have entered in or brought to this event. I acknowledge that while the AHBA may provide sanctioning for this event with regard to the issuing of titles, it does not have and does not exercise control over the conduct of the event or those present.

**I (we) will pay for injuries or replacement value (\$300.00) for Sheep (\$75.00 per head) ducks in the event of the death of any livestock by my or our dogs. If injury to any stock is caused by my/our dog entered or brought to this even, I we assume full responsibility for any damage. I we agree to pay full market value of the injured animal in case of injury or the veterinary bill for the injury, whichever is agreed to by the livestock owner.**

**I CERTIFY and represent that the dog or dogs I have entered in or brought to this event is/are not a hazard to other dogs, other animals, or to people. I CERTIFY that I am the actual owner of the dog or that I am the duly authorized agent of the actual owners whose name I have entered. In consideration of the acceptance of this entry, I we agree to abide by the Rules and Regulations of the AHBA in effect at the time of this herding Test or Trial or both, and further agree to be bound by the agreement printed above. The entry is submitted on the foregoing representation and agreement.**

HTAD COURSE #4

- N
- W + E     The designations North, East, etc. are for purposes of description only.
- S         The course may be mirrored.

The stock set-out indicated on the diagram relates to courses that begin with a gather. The location of the take pen and/or repen may vary from the location for the repen shown on the diagram, so long as it is at the same end of the arena as shown. The handler's post is located 20 ft. from the North fence, in the center. The panel obstacle is set 20 ft. from the West side of the arena, at least 110 ft. from the handler's post; the opening is 12 ft. The L-shaped obstacle is located in the Northwest corner of the arena. Both sides of the obstacle are 10 ft. long with an aisle 4 ft. wide. The freestanding pen is located 30 ft. from the East side and approximately one-third of the length of the arena from the North and should be 8-10 ft. on each side for sheep, 10-16 ft. on each side for cattle. (A trailer may be substituted for the pen.) The hold area is located approximately in the center of the arena. The area for sorts other than a gate sort is located approximately halfway between the hold area and the repen gate. For poultry, all dimensions are 1/2 that of hooved stock.

1. Gather or Take pen

Gather: The stock are let out at the repen gate and allowed to settle. In HTAD III, the handler remains at the post while the dog is sent from there to gather the stock. In HTAD II, the handler may leave the dog at the handler's post and move to a point approximately halfway between the post and the stock, then send the dog to gather the stock. In HTAD I, the handler may leave the dog at a point approximately halfway between the post and the stock and move to approximately 15 ft. from the stock, then send the dog to gather the stock. At all three levels the stock are brought to and around the handler's post, passing just to the East of the handler's post and then turning toward Obstacle 1. The gather ends when the stock have gone just past the handler's post.

Take pen: HTAD III handlers must remain outside the pen while the dog brings out the stock. HTAD II handlers may enter the pen with the dog but should not move the stock themselves. HTAD I handlers may enter the pen and assist the dog in moving the stock. An exception is made for cattle, where the handler may go in and assist if necessary at any level. If the stock come out on their own volition without the handler or dog entering, there is no penalty. Once the gate to the take pen is opened, it may not be closed until the stock have exited. The stock are then taken to the point on the course where the handler's post is located for the drive. Scoring for the take pen ends when the stock have reached the handler's post. The course then proceeds as indicated in the description.

## 2. Drive

The stock are driven to Obstacle 1. HTAD III handlers must stay at handler's post. HTAD II handlers may go to a point halfway to Obstacle 1, then must remain there for the remainder of the drive. HTAD I handlers may accompany the stock up to Obstacle 1. The drive ends when the stock reach a point 10 ft. in front of Obstacle 1.

## 3. Obstacle 1

The stock are moved through the freestanding panels. The handlers remain at the designated locations while the stock are taken through the panels. While HTAD I handlers may go up to the panels, they should not precede the stock through the panels. Once the stock have cleared the obstacle, handlers are free to move. Once the stock have gone through the panels, they are turned toward the West side of the arena, then back toward the North side, toward Obstacle 2. Scoring for this section ends when the stock have been turned toward Obstacle 2 and have moved past the end of Obstacle 1 closest to the West side of the arena.

## 4. Obstacle 2

The stock should enter at the South opening of the obstacle and exit heading East. HTAD III handlers must remain South of a handler's line running from the handler's post to the West fence parallel to the North fence, and may not pass that line until the stock have exited. HTAD II handlers must go to the entrance of the obstacle and remain in that location until the stock have exited. HTAD I handlers may move anywhere relative to the obstacle but may not enter it. Scoring ends when the animals have exited.

## 5. Obstacle 3

The stock are taken across the arena and put into the freestanding pen. Scoring for the pen ends when the gate is closed.

## 6. Hold

The animals are taken to the hold area. The stock is settled and briefly held in place. There is no required position for handler or dog. The judge signals the end of the hold/settle. HTAD I and II handlers then take the stock to the repen. HTAD III handlers proceed with the sort.

## 7. Sort

The sort is done by HTAD III handlers only. The stock is moved to the designated area, which depends on the type of sort being done. The sort may be one of the following: (a) Gate sort. (b) Ribbon-removal/shed. The sort ends when the gate is closed on the sorted animals, or when the ribbon has been removed/ animals have been shed.

## 8. Repen

The stock are taken to the repen and held a short distance off the gate while it is opened, and then are repenned. When a gate sort has been used, the animals that had been left out in the arena are repenned. The run ends when the repen gate is closed after the last animal has exited the arena.

**RottiEwe Farm AHBA HRD Trials Monday September 2, 2024 - 15 Head of Sheep - 25 minutes for All Levels**

**1 - TAKE PEN – (10) PTS.** Team enters through Exhibitor Entrance Gate and team proceeds to G1 entering the field shutting G1. Sheep will then be pushed from the barn into the Take Pen.

Level III - Handler may not enter the pen. Dog must enter the pen off lead.

Level II – Handler may enter the pen but remain just inside G1. Dog must enter the pen off lead.

Level I – Handler may enter the pen and may move around to assist the dog as needed but may not touch the dog or stock without penalty. Dog may be brought into the pen on lead if the handler chooses, but there must be a pause after the lead is removed, before the dog is sent to collect the stock. Element completed when ALL stock have been removed from the pen and G1 is closed.

**2 - GATHER – (10) PTS.** Sheep are allowed to settle anywhere at the top of the field, while the team proceeds to appropriate handler's cone.

Level III - Team goes to cone while sheep are settling. Dog is sent to gather from the cone, Handler remains at the cone.

Level II - Dog is set and must remain at the cone, Handler may go halfway to the stock. Dog is sent to gather fetch/Drive the sheep to the cone.

Level I - Dog may be taken to a point halfway between the cone and the stock, and the handler may go to within 15 Ft of the stock. Dog is sent to gather and team fetch/Drive to the cone.

Element completed once the stock have reached the cone.

**3 - Fence Line Y Chute with Gate (10) PTS.** Team proceeds from cone to the opening of the Y Chute.

Level III – Handler must remain at the cone while dog moves the stock to the front of the Y Chute and places stock into the chute. Dog must hold ALL stock in chute while the handler moves to the gate at the end of the chute to open.

Level II - Handler may accompany stock and dog to a point halfway to the Chute, then must remain until ALL stock are placed in the chute. Once stock are in the chute the dog holds the stock in the chute until the handler opens the gate.

Level I - Team may proceed to the chute by Fetch/Drive and places the stock into the chute. Dog holds stock while handler goes to and opens gate.

Element completed when (ALL LEVELS) proceed across field to G2.

**4 - Sort (10/15) PTS** When team reach G2 (Fetch and/or Drive). 5 Sheep are sorted through G2 into field and 10 Sheep are put into G3 holding pen, and may be sorted in any order. Team returns through G2.

Level III - Team works to sort 3 of the 5 marked sheep into field.

Level II - Team works to sort 2 of the 5 marked sheep into the field.

Level I - Team may sort any 5 Sheep into the field.

Element completed once 5 Sheep are placed into the field. And remaining 10 are placed into G3 holding pen.

**5 - Free Standing Pen PTS. ALL LEVELS (15) PTS** Team works to place ALL 5 Sheep into the Free Standing Pen. Once ALL Sheep are in the pen, team returns to and through G2 . Element completed once all sheep are penned.

Level III - Rope does not have to be held. Handler must remain within 10' of the gate and may NOT enter the pen.

Level II - Handler may go halfway between stock and pen. Handler may go inside gate, but may not enter the pen.

Level I - Handler may go anywhere on the field and may leave the pen to assist dog. Handler may enter the pen. Element completed once team and stock reach G2.

**6 - GATE WORK/ALLEYWAY/ROUND PEN – (10) PTS** Team enters G3 holding pen, and proceeds to G4. (Fetch/Drive) sheep through G4 into the alleyway. Team may enter G4 and open Gate 5 prior to moving sheep. Element completed once all stock are in round pen and G5 is shut.

**7 – Narrow Road / Graze – (15) PTS** All levels proceed to and through G6. All sheep must exit the round pen and G6 is shut. Team proceeds to the narrow road in front of the stock trailer and moves stock to G7 at the end of the narrow road. All levels must maintain the sheep on the road. Element completed once all stock have reached G7 and allowed into the pasture. Team proceeds to Fetch/Drive to marked area for the Graze allowing sheep to enter the area to graze. The Judge will call a one-minute Hold/Graze for all levels.

Level III – Handler must remain at the end of the stock trailer. Handler may not pass the green gates in front of the stock trailer. Dog must hold stock at the G7 until Handler reaches the Gate to allow stock into the pasture. Handler must remain at G8 while dog is holding or tending the Sheep within the graze area.

Level II – Handler may accompany stock and dog to a point halfway on the road to G7, from that point the handler remains at the halfway point and the dog proceeds with the stock to G7. Once the stock have reached G7 the handler may move to open G7,

Level I – Handler may fetch/Drive and accompany stock and dog to G7.

Element completed once the Judge has called a one-minute hold/graze and the team proceeds to G8 and allows sheep to enter the field.

**8 – Cross Drive Panels and Exhaust– (10/15) PTS . All levels must do a hold off the exhaust pen G1.**

Team proceeds to Free standing pen and exhausts the 5 sheep left in the Free-standing pen allowing ALL 15 sheep to reunite. Team proceeds to and through G2. Element finished when all stock are through G2 with all 15 head of sheep and have been re-penned.

Level III – Gather sheep and within 10 feet of G2 Drive sheep to the #4 on the West Fence line and cross drive the sheep to the #5 on the East Fence line. Once sheep have reached the #5 the handler may go to the Exhaust Pen G1 while the dog is holding sheep off the gate. Repen Sheep

Level II – Gather Sheep and proceed directly to G1/Exhaust Gate and re-pen sheep

Level I - Gather Sheep and proceed directly to G1/Exhaust Gate and re-pen sheep
