Uniform Residential Appraisal Report

File # 2612880

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.
3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing the appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.

I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. Comments on market data, including the range of rents for single family properties, an estimate of vacancy for single family rental properties, the general trend of rents and vacancy, and support for the above adjustments. (Rent concessions should be adjusted to the market, not to the subject property.) THE ESTIMATED MARKET RENT IS BASED UPON COMPARABLE RENTS AS WELL AS DISCUSSIONS WITH LOCAL REALTORS INVOLVED WITH THE CURRENT RESIDENTIAL RENTAL MARKET. CURRENT MARKET CONDITIONS APPEAR TO BE STRONG; THUS, MARKETING TIME IS ESTIMATED TO BE UNDER 60 DAYS, IF THE UNITS WERE OFFERED FOR RENT AND CORRECTLY PRICED.

Final Reconciliation of Market Rent: THE RENTALS CITED WERE THE BEST AVAILABLE WITHIN THE SUBJECTS MARKET AREA AND BEST REPRESENT THE CURRENT RENTAL MARKET.

I (WE) ESTIMATE THE MONTHLY MARKET RENT OF THE SUBJECT AS OF 08/04/2024 TO BE \$ 1,600

General Instructions: This form is to be prepared jointly by the loan applicant, the appraiser, and the lender's underwriter. The applicant must complete the following schedule indicating each unit's rental status, lease expiration date, current rent, market rent, and the responsibility for utility expenses. Rental figures must be based on the rent for an "unfurnished" unit.

	Currently Rented	Expiration Date	Current Rent Per Month	Market Rent Per Month	Utility Expense	Paid By Owner	Paid By Tenant
Unit No. 1	Yes ☒ No ☐	07/19/2025	\$ 1,900	\$ 1,600	Electricity	☐	☒
Unit No. 2	Yes ☐ No ☐		\$	\$	Gas	☐	☒
Unit No. 3	Yes ☐ No ☐		\$	\$	Fuel Oil	☐	☐
Unit No. 4	Yes ☐ No ☐		\$	\$	Fuel (Other)	☐	☐
Total			\$ 1,900	\$ 1,600	Water/Sewer	☒	☐
					Trash Removal	☒	☐

The applicant should complete all of the income and expense projections and for existing properties provide actual year-end operating statements for the past two years (for new properties the applicant's projected income and expenses must be provided). This Operating Income Statement and any previous operating statements the applicant provides must then be sent to the appraiser for review, comment, and/or adjustments next to the applicant's figures (e.g. Applicant/Appraiser 288/300). If the appraiser is retained to complete the form instead of the applicant, the lender must provide to the appraiser the aforementioned operating statements, mortgage insurance premium, HOA dues, leasehold payments, subordinate financing, and/or any other relevant information as to the income and expenses of the subject property received from the applicant to substantiate the projections. The underwriter should carefully review the applicant's/appraiser's projections and the appraiser's comments concerning those projections. The underwriter should make any final adjustments that are necessary to more accurately reflect any income or expense items that appear unreasonable for the market. (Real estate taxes and insurance on these types of properties are included in PITI and not calculated as an annual expense item) Income should be based on the current rents, but should not exceed market rents. When there are no current rents because the property is proposed, new, or currently vacant, market rents should be used.

SUMMARY OF COST APPROACH:
DEVELOPMENT OF THE COST APPROACH HAS BEEN ATTEMPTED BY THE APPRAISER AS AN ANALYSIS TO SUPPORT THE OPINION OF THE PROPERTY'S MARKET VALUE. BECAUSE THERE IS INSUFFICIENT MARKET EVIDENCE TO CREDIBLY SUPPORT THE SITE VALUE/DEPRECIATION, THE COST APPROACH IS NOT GIVEN ANY CONSIDERATION IN THE APPRAISER'S FINAL ANALYSIS. USE OF THIS DATA, IN WHOLE OR IN PART, FOR OTHER PURPOSES IS NOT INTENDED BY THE APPRAISER. NOTHING SET FORTH IN THE APPRAISAL SHOULD BE RELIED UPON FOR THE PURPOSES OF DETERMINING THE AMOUNT OR TYPE OF INSURANCE COVERAGE TO BE PLACED ON THE SUBJECT PROPERTY. THE APPRAISER ASSUMES NO LIABILITY FOR, AND DOES NOT GUARANTEE THAT ANY INSURABLE VALUE ESTIMATE INFERRED FROM THIS REPORT WILL RESULT IN THE SUBJECT PROPERTY BEING FULLY INSURED FOR ANY LOSS THAT MAY BE SUSTAINED. THE APPRAISER RECOMMENDS THAT AN INSURANCE PROFESSIONAL BE CONSULTED. FURTHER, THE COST APPROACH MAY NOT BE A RELIABLE INDICATION OF REPLACEMENT OR REPRODUCTION COST FOR ANY DATE OTHER THAN THE EFFECTIVE DATE OF THE APPRAISAL DUE TO CHANGING COSTS OF LABOR AND MATERIALS AS WELL AS CHANGING GOVERNMENTAL REGULATIONS AND REQUIREMENTS.

FIRREA CERTIFICATION STATEMENT:
THE APPRAISER CERTIFIES AND AGREES THAT THIS APPRAISAL REPORT WAS PREPARED IN ACCORDANCE WITH THE REQUIREMENTS OF TITLE XI OF THE FINANCIAL INSTITUTIONS, REFORM, RECOVERY, AND ENFORCEMENT ACT(FIRREA) OF 1989, AS AMENDED (12 U.S.C. 3331 ET SEQ.), AND ANY APPLICABLE IMPLEMENTING REGULATIONS IN EFFECT AT THE TIME THE APPRAISER SIGNS THE APPRAISAL CERTIFICATION.

THE SUBJECT IS A RESIDENTIAL USE PROPERTY IN A ZONE THAT PERMITS RESIDENTIAL USE. THE SUBJECT SITS ON A PARCEL OF LAND THAT WOULD NOT PERMIT SUB-DIVISION. EXPANSION OR DEMOLITION AND/OR NEW CONSTRUCTION WOULD NOT BE FINANCIALLY FEASIBLE. THE SUBJECT IS CURRENT USE IS ITS MOST PRODUCTIVE USE.

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM
(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Condition Ratings and Definitions

C1

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered “new” if they have any significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

Quality Ratings and Definitions

Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner’s site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residence constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

Quality Ratings and Definitions (continued)

Q3

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner’s site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from “stock” standards.

Q4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of) square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example:

3.2 indicates three full baths and two half baths.

A. PURPOSE AND FUNCTION OF THE APPRAISAL / INTENDED USER

The purpose of this appraisal is to estimate the market value of the subject property as defined by the Federal National Mortgage Association (Fannie Mae), The Federal Home Loan Mortgage Corporation (Freddie Mac), and the Financial Institutions Reform, Recovery and Enforcement Act of 1989 (FIRREA). The function of the appraisal is to assist the identified lender or assignee in the underwriting of the risk associated with a residential mortgage loan. The Intended User of this appraisal report is the Lender/Client. The Intended Use is to evaluate the property that is the subject of this appraisal for a mortgage finance transaction, subject to the stated Scope of Work, purpose of the appraisal, reporting requirements of this appraisal report form, and Definition of Market Value. No additional Intended Users are identified by the appraiser. The appraisal cannot be used for any other purpose.

B. THE SCOPE OF THE APPRAISAL PROCESS

The appraisal report is based on a physical inspection of the neighborhood, subject property, and the analysis of information gathered from public or private records that may have an influence on the value of the property. The valuation process includes an exterior inspection of all comparables considered to physically verify as much data as possible for comparison purposes to the subject property. The appraisal report is not a Home Inspection and should not be relied upon as such. The appraiser only performed a visual inspection of accessible areas. For a thorough structural, material and home system analysis, a professional home inspection is recommended.

C. ENVIRONMENTAL DISCLAIMER

The value estimated in this report is based on the assumption that the property is not negatively affected by the existence of hazardous substances or detrimental environmental conditions. The appraiser's routine inspection of and inquiries about the subject property did not develop any information that indicated any apparent significant hazardous substances or detrimental environmental conditions which would affect the property negatively, unless otherwise stated in this report. It is possible that tests and inspections made by the qualified hazardous substance and environmental expert would reveal the existence of hazardous materials or detrimental environmental conditions on or around the property that would negatively affect its value.

D. ADDITIONAL CERTIFICATIONS

APPRAISAL STANDARDS: The appraiser's analysis, opinions and conclusions were developed and this report has been prepared in conformity with the Uniform Standards of Professional Appraisal Practice (USPAP). The Departure Provision of USPAP was utilized in preparation of this report. The Income Approach to Value was not utilized due to the lack of sufficient rental data to accurately develop a Gross Rent Multiplier. Single Family Dwellings in this market area are not typically purchased for investment purposes and are typically owner occupied.

APPRAISER COMPETENCY: In accordance with the competency provision in the Uniform Standards of Professional Appraisal Practice (USPAP), the appraiser certifies that his/her education, experience and knowledge is sufficient to appraise the type of property appraised.

APPRAISER INDEPENDENCE: The appraiser certifies that (1) the appraisal assignment was not based upon a requested minimum valuation, specific valuation, or the approval of a loan; (2) employment, or future employment was not conditioned upon the appraisal producing a specific value or value within a given range; (3) employment, compensation and future employment are not based upon whether a loan application is approved; (4) neither the appraiser nor any person with an ownership interest in the company employing the appraiser, or related to, or has any ownership or other financial interest in, either the builder/developer, seller, buyer, mortgage broker or real estate broker/salesperson (or any person related to any of them) involved in the transaction for which this appraisal has been requested, or with the most recent sale or refinancing of any property used as a comparable property in this appraisal; and (5) the appraiser is not aware of any facts which would disqualify him/her from being deemed an independent appraiser.

EXPOSURE TIME: Exposure time may be defined as: the estimated length of time the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal; a retrospective opinion based on an analysis of past events assuming a competitive and open market.

TRANSMISSION: This appraisal was transmitted to the client through electronic means. This electronically transmitted report is a written report meeting all USPAP reporting requirements. Digital signatures and photographs have been utilized within this report. The digital signature has been protected through the use of a password known only to the appraiser. The same level of authenticity and responsibility that is associated with a traditional ink signature is attached to this electronic signature. The signatures in this report are electronically produced, are password protected and are viable as original signatures. The photographs in this report are produced by digital photography and are guaranteed not to be altered or enhanced.

E. HUD LENDING CONDITIONS

If this appraisal was prepared for FHA mortgage lending, the appraisal is prepared within the guidelines set by HUD. The appraiser is not a home inspector, engineer, plumber, electrician, or HVA/C contractor. The appraiser does have the knowledge required by HUD to do an appraisal on the property, and include a limited review of the physical condition of the home to reveal obvious and significant defects as mandated by HUD in HUD letter #99-99 on 6/10/99. An inspection by licensed contractor is recommended.
