# FLASHING RED LIGHTS

Hi All

On getting up today I knew that there was going to be an avalanche of information on this upcoming humanity changing disclosure event. The most credible UFO experts, especially Lou Elizondo (see Elizondo video below), are supporting the magnitude of the whistleblower (actually 3 of them) tonight at 8 PM on the Ross Coulthart show on NewsNation. There will be a crash retrieval video.

So, I was thinking "Thank God I don't have to rely on Greer's disclosure promise, maybe we don't even need Greer!" The stuff we see tonight should be enough to light the disclosure fire. I was also thinking that Greer must be sh---ing his pants. He is being beat out by Coulthart.

And then a few minutes ago Greer all of a sudden has started a live 2nd podcast. I am still listening to it but here is what he is saying so far:

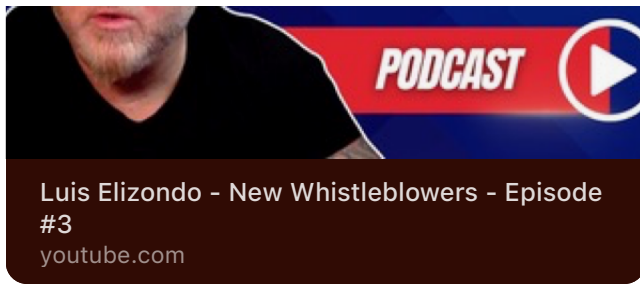

- he knows who the whistleblowers are who are coming out tonight and will set the stage for continuous disclosure
- they are a different group than his group who are still coming out - hint it may not be by inauguration
- his group will have even more explosive evidence
- he supports fully what Coulthart is doing and is very impressed that these whistleblowers are fully coming out including saying who they are - this has always been the main obstacle to the public believing these second or third hand witnesses who don't have direct evidence
- he flew in a helicopter with Coulthart's witness over the underground black sites
- he has been given drafts by Trump's team of four Executive Orders that Trump will be signing to pursue this disclosure (Greer gave initial drafts of these Orders to Trump's team already)
- lots more in process, but I want to get this out to you now

This is no longer a fairy tale or rabbit hole. I urge you to watch this stuff because the details now matter very much. It's our children's future and we need to understand how this will affect them

I will send a link to Coulthart to everybody just before 8 pm tonight so you can find it more easily.

Alan

Use the first link to Greer below, not the second - I can't delete it for some reason
