AB

Sorry for the repeat, but the podcast video below that Greer did today is the best summary of the history of the UFO issue and decades long coverup that I have seen him give and takes about an hour. So if and when the disclosure does come out I would recommend that you listen to it if not before. If you have heard him before then it is repetitive but this is the most concise and time relevant summary that he has done. Public education is probably one of the most important elements to this upcoming disclosure.

Hi All

I recognize that many of you really don't want to hear from me until this disclosure actually happens. However if it happens there is going to be an important historical record that should be recorded and I want to be part of that. If it doesn't happen then more egg on my face but I accept that.

Greer just finished a live podcast which is the first in a series of podcasts to track what is going to happen in the next 72 hours. No, this is not the whistleblower group disclosure yet. Greer has put everything in to this, and he is not charging for any of his podcasts. He is cautioning about the chaos that is going to erupt as this disclosure comes out.

In addition, this morning there are several other UFO researchers who are considered credible who are jumping on Greer's bandwagon. Some of them only say that it will come out by the end of January or in the next couple of months but Greer continues, as of today, to say before January 20 and he is the main point person who will distribute this disclosure.

Stay tuned as I will send you something as soon as the disclosure starts to happen or if it is called off as a hoax.

Alan
