Hi All

***Here is a summary of what this update is all about:***

- ***the January 1 Las Vegas suicide bomber, Livelsberger, did release a “manifesto” one day before he died***
- ***Livelsberger was an active Green Beret who worked in Germany on the army's “drone” program and also has active “UAP” access***
- ***in his manifesto he was very upset by two items: war crimes in 2019 that he had to participate in as a Green Beret; and, drones with gravitic propulsion systems that China has been releasing into the US***
- ***he is basically confirming the existence of man made UAPs powered by anti gravity systems that only China and the US have (exactly what Greer has been saying for years now)***
- ***use of these “drones” by the US and China creates a threat of mutual self destruction similar to the nuclear threat with Russia***
- ***the main news media is NOT covering this yet, they have only referred to his guilt over the 2019 war crimes as a cause of his PTSD and suicide***
- ***the manifesto refers to Livelsberger being followed and an implied assassination possibility***
- ***the circumstances and some details of his suicide are very suspicious***
- ***the source of this information are two military podcasters, one of whom is very famous, Shawn Ryan***
- ***they have been able to double check the credibility of this manifesto and are still working on further verification***
- ***this information, if correct (I know, a big if for most of you) confirms much of Greer’s allegations - he was the first to say that the recent drone frenzy is from China and that man made anti gravitic propulsion systems exist***

If you paid any attention to the cybertruck explosion in front of the Trump Hotel in Las Vegas then you would think that a PTSD affected Green Beret soldier lost it and committed suicide by shooting himself just after he detonated some firework explosives in his cybertruck. Not much else has come out about this event although in other events like this including the New Orleans terrorist attack a lot of media coverage comes out where we are looking for evidence and communications about his manifesto and reasons for the attack. There is a strange amount of silence about the Las Vegas event. Nothing to see here, just a crazy guy who committed suicide in a very flashy public display.

When it comes to stories involving the military the number one podcaster who covers this stuff in detail is Shawn Ryan. Here is his background:

"Shawn Ryan is the founder of Vigilance Elite and the creator and host of the hit podcast “The Shawn Ryan Show.” Ryan, himself a former US Navy Seal and CIA Contractor with 14 years of service spanning multiple combat operations, developed the series to document the untold stories of war, loss, and redemption from the men and women who lived them. Ryan expanded the mission of the series to directly assist and coach veterans on how to apply their skill-sets to the civilian sector. Now, The Shawn Ryan Show has grown into a pipeline for veterans transitioning from service to entrepreneurship, raising over 1 million via crowdfunding to support these causes. The program is now widening scope to explore topics and guests in society, culture, and current events.”

Earlier in my updates I referred to you some interviews done by Shawn Ryan with some of

the military UFO whistleblowers that Steven Greer has been working with. Ryan has always been neutral towards Steven Greer and his stories.

Another military podcaster, Sam Shoemate, was interviewed by Shawn Ryan on January 3 (see link below) following an email ("manifesto") that he had received on December 31 from Matthew Livelsberger, the Las Vegas suicide guy, the day before he committed suicide. Here is how Shawn Ryan summarized this discussion:

"I urge everyone to dedicate at least 45 minutes to fully grasp the details that have unfolded over the past few days. This episode takes a deep dive into the manifesto—an email sent to [@samosaur](#) by Matt Livelsberger himself. Within this chilling document, Livelsberger boldly declares, "What I'm going to send you is going to change the course of humanity."

Matt Livelsberger, a former Green Beret, is at the center of this story. Just days before he drove a Tesla Cybertruck loaded with explosives to Trump International Hotel in Las Vegas. The Cybertruck incident, has raised serious questions about Livelsberger's motivations, his credibility, and the information he shared. In this episode, we unpack the manifesto's contents, which include allegations of advanced drone technology, U.S. war crimes in Afghanistan, and the use of gravity propulsion systems by China"

So, there is a **manifesto** from Livelsberger, the Las Vegas suicide guy. It is in this email:

Subject: Fw: Re: Initial contact

In case I do not make it to my decision point or on to the Mexico border I am sending this now. Please do not release this until 1JAN and keep my identity private until then.

First off I am not under duress or hostile influence or control. My first car was a 2006 Black Ford Mustang V6 for verification.

What we have been seeing with "drones" is the operational use of **gravitic propulsion systems** powered aircraft by most recently China in the east coast, but throughout history, the US. **Only we and China have this capability.** Our OPCEN location for this activity in the box is below.

China has been launching them from the Atlantic from submarines for years, but this activity recently has picked up. As of now. it is iust a show of force and thev are usind it

...the balloons, the balloons are used for sigint and isr, which are also part of the integrated comms system. There are dozens of those balloons in the air at any given time.

The so what is because of the speed and stealth of these unmanned AC, they are the most dangerous threat to national security that has ever existed. They basically have an unlimited payload capacity and can park it over the WH if they wanted. It's checkmate.

USG needs to give the history of this, how we are employing it and weaponizing it, how China is employing them and what the way forward is. China is poised to attack anywhere in the east coast.

**I've been followed for over a week now from likely homeland or FBI, and they are looking to move on me and are unlikely going to let me cross into Mexico,** but won't because they know I am armed and I have a massive VBIED. I've been trying to maintain a very visible profile and have kept my phone and they are definitely digitally tracking me.

**I have knowledge of this program and also war crimes** that were covered up during airstrikes in Nimruz province Afghanistan in 2019 by the admin, DoD, DEA and CIA. I conducted targeting for these strikes of over 125 buildings (65 were struck because of CIVCAS) that killed hundreds of civilians in a single day. USFORA continued strikes after spotting civilians on initial ISR, it was supposed to take 6 minutes and scramble all aircraft in CANTCOM. The UN basically called these war crimes, but the administration made them disappear. I was part of that cover-up with USFORA and Agent "name blacked out" of the DEA. So I

don't know if my abduction attempt is related to either. I worked with GEN Millers 10 staff on this as well as the response to Bala Murghab. AOB-S Commander "name blacked out" at the time can validate this.

**You need to elevate this to the media** so we avoid a world war because this is a mutually assured destruction situation.

For vetting my LinkedIn is Matt Berg or Matthew Livelsberger, an active duty 18Z out of 1-10 my profile is public. I have an active TSSCI with UAP USAP access.

*Sending with a yen active on wifi only.*

*Do not message me. I will send out updates via both signal and email but trust me you're going to want to be involved"*

This is all getting to be too weird. I guess within 2 weeks or so we may know a lot more or I will have totally succumbed to the UFO Rabbit Hole.

Alan
