HYDRATION STATION

- 250 mL Normal Saline **\$99**
- 500mL Normal Saline **\$129**
- 1000mL Normal Saline **\$149**

We can provide a solution of Lactated Ringer, Sterile water, or Dextrose, if indicated.

All IV Drips come with a basic backbone formula (Individualized Myers Cocktail) and vary by dose, concentration, duration, and volume- as well as personalization based on age, height, weight, medical history, current medications, allergies, specific needs, etc.

Specialty drips include the backbone formula with minor individualized variations- as well as additional specific nutrients and/or medications as indicated/needed.

Some drips require laboratory testing, in particular high dose IV Vitamin C, and Iron infusions. Some serial injections require laboratory testing as well, such as Vitamin D, B12, and Iron.
