FULL SPECTRUM 1g FECO SYRINGE 77.18%

COMING SOON !

FECO stands for Full-Spectrum Extract Cannabis Oil. FECO is a dark, thick oil that comes packaged in a syringe for precise dosing, it is recommended to run the syringe under warm water for easier use. FECO is a highly concentrated, whole-plant extract that is known to provide one of the broadest spectrums of cannabinoids and terpenes available. FECO can be considered as one of the most potent and versatile cannabis treatment options as it offers the largest range of cannabinoids and terpenes. It is usually consumed orally and processed through the liver like an edible. Although, it can also be applied topically to the skin. FECO has a strong herbal cannabis flavor that may taste unpleasant but can be covered with food or placed in a gel capsule to avoid tasting the substance. If the flavor doesn't bother you, the oil can be taken directly by mouth. Due to its high potency, begin with a very small dose, no larger than a grain of rice. Because FECO is consumed orally, onset of effects can take over an hour. So if you don't feel anything at first, wait 2-3 hours before taking a small dose again. Edible effects can last 8-12 hours and produce more intense effects than inhaled consumption methods.

FECO has been used to aid in: Pain relief, Reducing anxiety, Reducing depression, Easing of cancer-related symptoms, Reducing inflammation.
