# Welcome to **PIP PROMOTIO**

We are committed to providing the highest level of quality and service with our promotional safety products. Our facility in Guilderland, New York has more than doubled over the last few years. We've also invested in new, state-of-the-art silk-screening and pad printing machinery, resulting in higher definition printing. Along with this, we continue to add new safety products to our comprehensive line in order to Bring the Best of the World to You.

We are grateful for your business and equally grateful for key marketing partners who help make it easy for you to do business with PIP Promotional Products.

## PERSONALIZATION METHODS

### IMPRINT METHODS ARE DEPENDENT UPON THE PRODUCT SELECTED

**PAD PRINTING:** This indirect offset printing process allows the image to be transferred from the printing plate via a silicone pad onto the product and is ideal for imprinting three dimensional objects. Imprinting is available in up to four colors, depending on the product.

**HEAT TRANSFER:** The image is printed on transfer paper and then applied to the product by using heat. This method allows for better detail and multiple colors. Imprinting is available in up to four colors.

**SCREEN PRINTING:** The image is ink printed directly on the product using a set of screens. Imprinting is available in up to four colors. Available for clothing only.

**EMBROIDERY:** This higher quality imprint option is available with up to nine colors. All pricing must be custom quoted based on stitch count. Lead times vary based on quantity.

## PRICING & DETAILS

Pricing is outlined in the charts and includes a one color imprint in one location per glove pair. An extra charge is mentioned for each additional color. When ordering logoed gloves please specify imprinting direction:

- Logo read by a viewer is referred to as “facing viewer”
- Logo read by the wearer is referred to as “facing wearer”

Clothing is typically logoed on the back for maximum viewing impact and security. The logo is sized to smallest size ordered and carried through to all sizes. For eyewear, logo placement is highly dependent on specific models. Most popular is on one of the temples, or on the lens. While we always try to ship exact quantities ordered, production methods vary and we reserve the right to ship and bill up to 10% over or under the amount ordered.

### SET-UP CHARGES

- **GLOVES:** orders are subject to a \$35.00 (V) fee per color
- **CLOTHING:** orders are subject to a \$25.00 (V) fee per color
- **EYEWEAR:** orders are subject to a \$40.00 (V) fee per color
- **HARD HATS:** orders are subject to a \$40.00 (V) fee per color

\*\* All pricing is subject to change without notice.  
Sizes may be mixed & combined within a style to meet quantity pricing levels.  
Gloves must be purchased by the dozen.  
Binding color on gloves changes based on size.

## ARTWORK GUIDELINES

### PLEASE FOLLOW THESE GUIDELINES WHEN SUBMITTING ARTWORK

#### ARTWORK

Submitted artwork should be production ready, at the desired imprint size. Artwork that is not production ready will be corrected at a charge of \$70 (V) per hour. No charge is made for corrections completed in less than 30 minutes. Please read our guidelines carefully before submitting artwork.

#### GUIDELINES

- Artwork needs to be "Vector" art.
- Vector artwork should be created in Illustrator or Freehand. If artwork is scanned, use a 1000 dpi resolution or higher for line art.
- Fonts must be 8 points or larger. All fonts used must be converted to outlines.
- One-color designs should be high-contrast compositions and accurately sized (to actual size).
- As a general rule, higher resolution images are better - 72 dpi images cannot be used for printing.
- Save your artwork in the native format used by your application.
- Pantone color matches will be charged \$60 for each color.
- Photocopies, business cards, stationary, drawings, decals, faxes and files copied from web sites are NOT acceptable forms of artwork.
- GIF, PNG, BMP and low resolution JPG files will NOT be considered as production ready artwork

## INK COLORS

- When printing on colors other than white on colored hard hats, it may be necessary to add an underlay color to achieve a better color match due to the color of the hard hat bleeding through. In these instances, an additional fee may apply.
- Due to the nature of imprinting on a variety of materials and colors, we cannot guarantee a perfect color match.
- Variations in shade such as shadows and fading affects will be omitted or substituted with solid color, as these cannot be duplicated using our imprinting methods.

#### STOCK COLORS

The colors of your logo may be substituted with the closest stock colors listed below for no extra fee.
