

Grow Like A Butterfly

We all love butterflies for their beautiful, brightly-coloured wings. But did you know that these fab flyers begin life as something completely different? Yes, they begin life as caterpillars. As they grow, they undergo one seriously terrific transformation. Similarly, you have grown over the years. Think about how little you could do as a baby and how you have grown and are now able to do lots of amazing things. Subhan Allah!

Fill this butterfly below by writing all the things you have learned to do as you have grown. Make it as colourful as a beautiful butterfly that Allah ﷻ has created.
