

# Ramadan Moon Puffy Paint

## Recipe

### You will need:

Shaving foam/cream

White glue

Black paint

Circles of card or paper plates

Mixing bowl

Mixing utensil

Paint brush

### Method

1. In a bowl, mix together equal parts of white glue and shaving foam/cream.
2. Fold the glue and shaving foam together gently, trying not to remove all of the air.
3. Add a small drop of black paint and continue to fold. Continue to add the black paint until the desired grey colour has been achieved.
4. Paint the card/paper plate with the puffy paint.
5. Encourage the children to poke their fingers into the paint to create moon craters.
6. Allow the paint to dry. It will become puffy as it dries.
