

Introduction

Vision Health Care Foundation

Vision Healthcare Foundation, established in 2022 and registered under Section 42 of the Companies Act, 2017 with the Securities and Exchange Commission of Pakistan, is a nonprofit organization dedicated to providing high-quality eye care. Building on decades of compassionate service, it operates the Khairun'nisa Eye Hospital in Karachi—a state-of-the-art secondary and tertiary-level facility. To date, the hospital has served over 100,000 patients and performed more than 24,000 surgeries, with over 80% of treatments provided free or at subsidized rates, embodying our mission to make advanced eye care accessible to all.

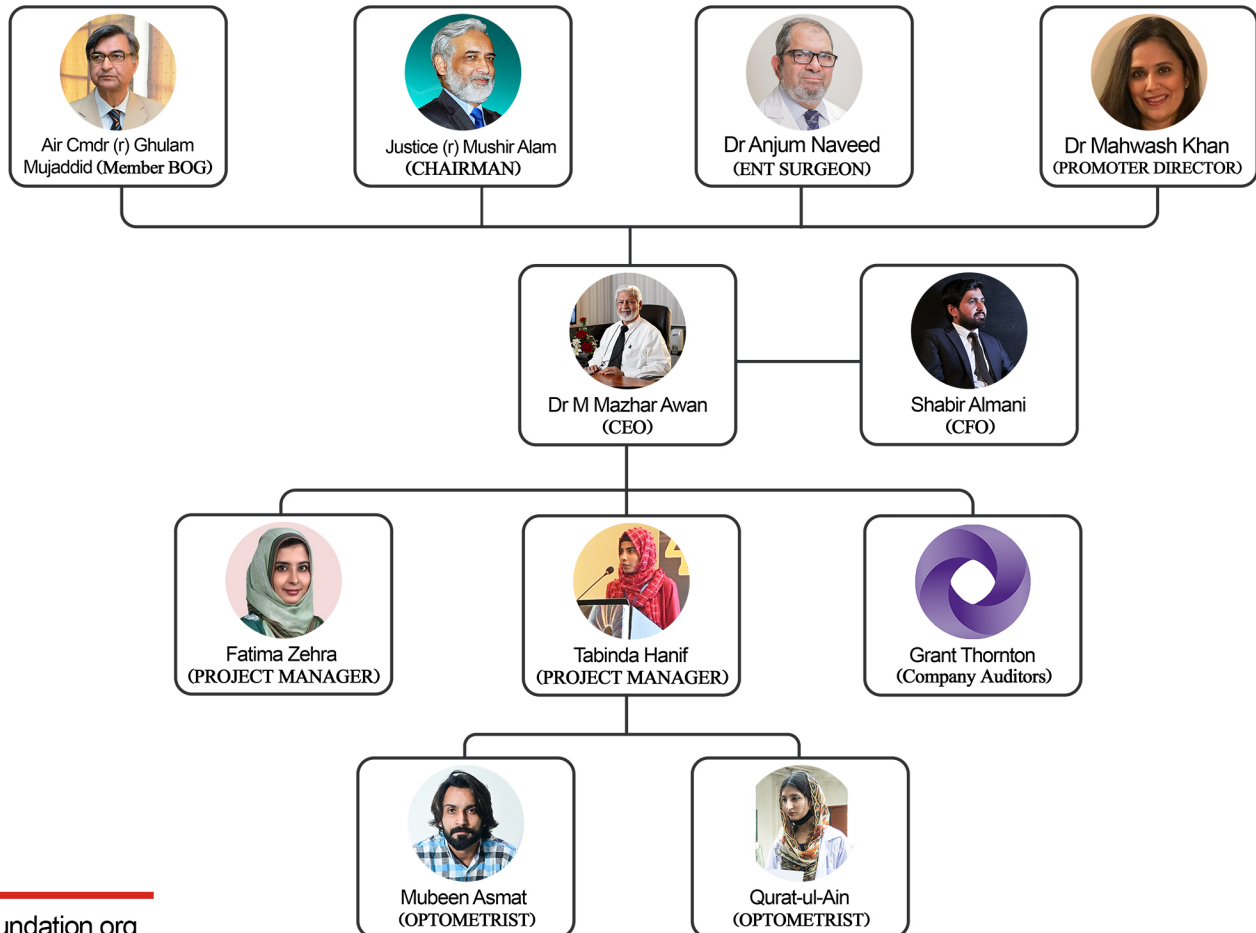

100,000+ Patients

Free Treatment

24,000+ Surgeries

Attock Chapter

On September 15th, we inaugurated Vision Health Care Foundation Attock. Local leaders, healthcare professionals, and community members joined this monumental step toward making quality eye care accessible for all in the region.

Events:

Since our inauguration, the Vision Health Care Foundation has been actively engaged in organizing eye camps in partnership with local organizations and schools. These camps have made a significant impact, bringing vision screenings, consultations, and necessary treatments to the community.

Al-Amin Foundation Camp:

Provided free eye checkups and treatments to underserved individuals.

Aghosh Foundation Camp

Distributed free glasses and conducted vision exams for marginalized communities.

Army Public School Camp

Raised awareness about eye health through checkups for students and staff.

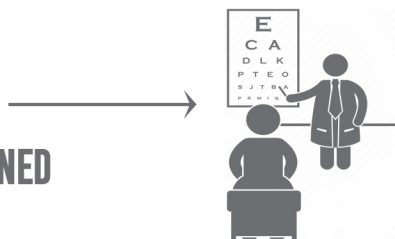

FG Public School Camp

We continued our efforts by holding eye camps at FG Public School, where we offered free eye exams to students. It was heartwarming to see the engagement of both children, who left with a greater understanding of the importance of eye health.

2000+
SCHOOL CHILDREN EXAMINED

500+
GLASSES PROVIDED

Magic of Glasses

Hasan always had trouble studying. Whenever he looked at the board in school, the letters seemed blurry, and he couldn't understand anything. He tried every day to read what was written on the board, but the harder he tried, the more his head would ache. He told his teacher, and also complained to his mother at home about the constant headaches. The Vision Healthcare Foundation team visited his school, conducted eye exams, and provided him with glasses. Hasan was happy that his problem was solved. Now, he could study with focus, and what seemed difficult before was now easy. The glasses had changed his life, and he realized that he could now improve himself even more.

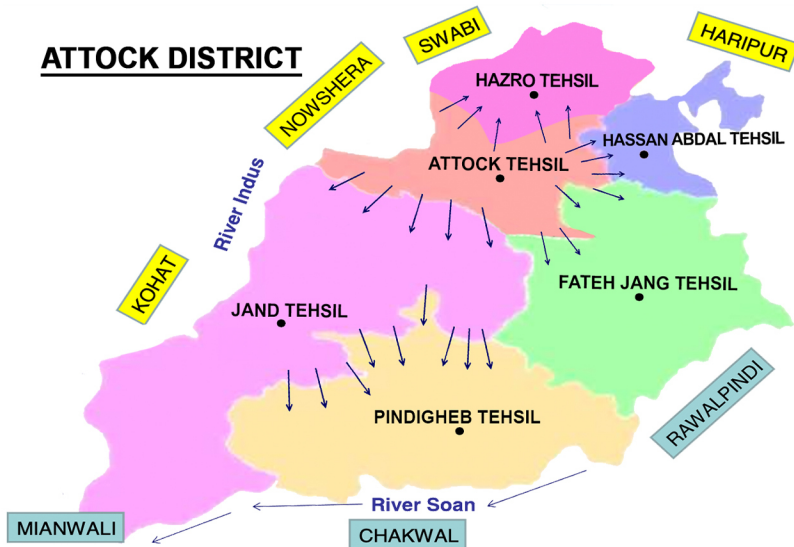

OPD Services Are Here!

We are thrilled to announce the successful launch of our Outpatient Department (OPD) services, which became fully operational in January 2025. This milestone marks a significant step in our commitment to providing quality healthcare to our community.

Future Plans

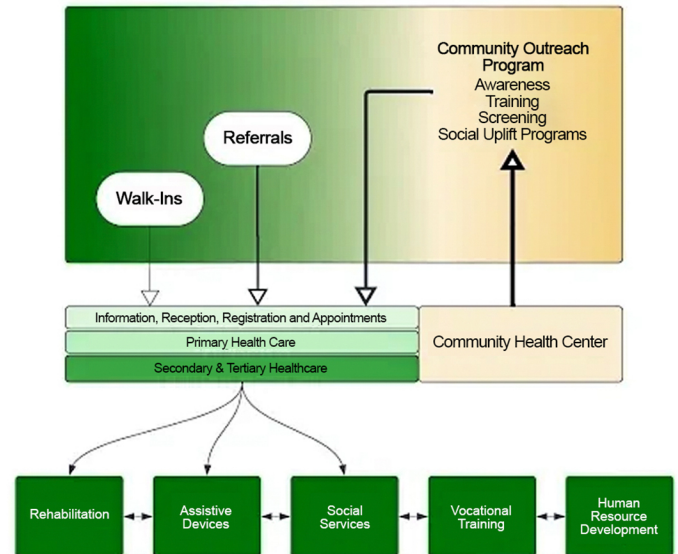

● Immediate Plan

Expand services beyond Attock District i.e Pindi Gheb, Fateh Jang, Jhand, Hazro, Hassan Abdal and Sub District Attock.

● Long Term Plan

Establish a Comprehensive Disability Management Center to address broader healthcare needs.

Partner with us for Advanced Eye Care

Vision Health Care Foundation Attock provides essential primary eye care services and refers patients needing surgeries or tertiary treatments to advanced healthcare facilities nearby. We're building a referral network with hospitals, specialists, and clinics to ensure timely, high-quality care for all.

Join Us

- Healthcare Providers: Accept referrals for surgeries and advanced care.
- Hospitals & Clinics: Collaborate to streamline patient referrals.
- Community Leaders: Help connect us with tertiary care facilities.
