QUOTES FROM CLIENTS...

Ashley has been nothing but amazing!!! She has been taking photos of my son for the last 5 years!! And they just keep getting better!! She's honest and very trustworthy!! She makes each session feel as normal as possible, half the time my son doesn't even notice she is taking pictures!

Keila

Ashley is amazing to work with. I never know what to expect with 2 young boys, but she captured every special moment without me having to prompt the kids at all! Her instructions and guidance before the session were truly appreciated. The moments she captures and her editing skills are a match made for picture perfection! Highly recommend!

Tabitha

I highly recommend Ashley! She is super professional and makes you feel very comfortable in front of the camera. I was lucky enough to have her take some maternity photos of myself along with my toddler. She is very patient with children who have a hard time sitting still or looking at the camera!

Michelle

I was impressed with Ashley's maternity photos. She had done for my family and friends so I was very excited to send her a message about doing ours. She was really quick to respond about any questions I had and was very flexible on dates and times.

She made me feel so comfortable during our maternity shoot and was super patient with our dog! We absolutely love our photos and can't wait to do our newborn shoot with her.

Marita

Ashley did an amazing job on my maternity photos! She was absolutely wonderful with my toddler as well. I highly recommend her!

Viviana

Ashley is wonderful with children and has a great vision, which shows in her photography! Her editing skills are on point which I am very grateful for!

Denise

Loved our pictures with Ashley Brooks Photography! Ashley was great at keeping children entertained while she got them to pose. I would recommend having Ashley Brooks Photography take your photo's that you will always look back on and share with your loved ones!

Bridget

Absolutely beautiful pictures! -It was our first time getting professional photos done of the children and ABPhotography was a perfect choice. Wonderful with children; and mine can be a handful. I was so afraid my [son] would have a temper and all Ashley got were smiles .

Christie
