

MAIMIN[®]

THE CUTTER'S EDGE

CUTTING MACHINES AND SUPPLIES

STRAIGHT KNIFE CUTTERS

Accurate, reliable and long-lasting machines, manufactured in the USA using today's most advanced components. Available in sizes from 6 to 14 inches and with a variety of options such as Ergonomic Handle and Swivel Baseplate.

Sabre 2000

NORMAL

More power, easy-glide rollers, solid state circuitry, and total quality for consistently accurate cutting. 33 lbs.

Sabre 3000

HEAVY

The most power, designed to cut tough materials including denim and canvas with ease. Optional swivel rollers make turning easy in the hardest lays. 34 lbs.

Sabre 3000 Denim Cutter DENIM

A special version of the powerful Sabre 3000 for cutting denim with greater precision and less fatigue. Weight is centered for maximum maneuverability. 34 lbs.

Varispeed

FUSIBLE

The only variable speed machine with a DC motor for full torque at any speed, so you can cut high lays of fusible goods. Twin speeds can't compare! 36 lbs.

Sabre

Varispeed

APPLICATIONS

Maimin manufactures a complete line of cutting machines, with a variety of models designed to cut virtually every type of material.

- Apparel
- Furniture
- Bedding
- Kevlar
- Canvas
- Awning
- Curtain
- Nylon
- Carpet
- Tent
- Vinyl
- Filter
- Automobile & Airplane Interiors
- Graphite Composites

LARGE ROUND KNIFE CUTTERS

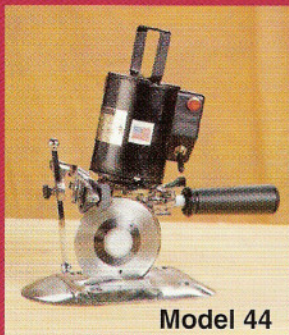

These powerful models are available with a variety of motor and blade sizes, and feature our patented Thread Seal on the gear to keep out dust and lint.

Model 44: For low to medium lays of most fabrics. 4 inch blade. 2 inch capacity, continuous duty rated motor. 10 lbs.

Model 54: Our larger, more powerful motor with a 4 inch blade. For easy maneuverability on tough jobs. 17 lbs.

Model 59: The industry standard, 5 1/4 inch blade. Maximum power-to-weight ratio for easy cutting of all materials. 17 lbs.

Model 87: Large, rugged, most powerful 7 inch blade. For cutting high lays or hard materials. 21 lbs.

Model 44

Model 59

MINISHERE AND ROTOSHERE CUTTERS

These consistently reliable lightweight cutters are among the most versatile in any cutting room. Minisheres will not pull light fabrics or fuse synthetics, and feature a sharpener built *inside* for better durability. Rotosheres, like all Maimin cutters, are built for long life under industrial conditions.

Minishere

Air Minishere

Minishere

Fast, Powerful electric-motor hand shear, double-insulated for safety and convenience. All models have a 2 inch blade and 5/16 inch cutting capacity.

Air Minishere

The fastest, most powerful minishere. Requires 90 psi.

Stretch Minishere

Unique ergonomic design, balanced to eliminate strain on wrist and arm. Extends 32 inches.

Rotoshere 2

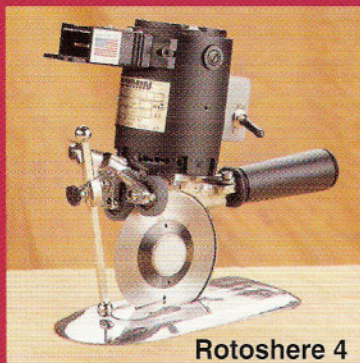

Compact, high speed and very light. Cleanly and easily cuts through single plys or lays to 1/2 inch. Blade size 2 1/2 inches.

Rotoshere 4

Just reintroduced! Very fast blade speed for efficient cutting of non-fusible materials up to 2 inches high. Blade size 4 inches.

Rotoshere 10

Combines a 4-sided blade with low speed and high torque for cutting up to 1 inch lays of synthetic or industrial fabric without pulling or fusing. Blade size 4 inches.

Rotoshere 4

Cloth Drill PowrTemp Drill

DRILLS

More accurate than any cloth drill available. Our unique design eliminates the telescoping needle that makes other drills unbalanced and hard to use. Sizes from 6 to 11 inches, needle diameters from 0.055 to 3/16 inches. 8 lbs.

'C' Cloth Drill

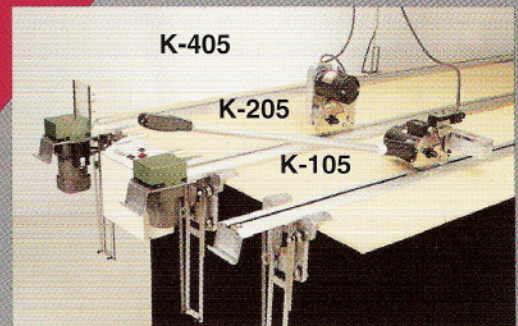

A light, high-speed motor and reduced gearing for extra power.

Features an adjustable chuck, and bushing that accommodates four needle diameters for superior versatility.

PowrTemp Drill

Adds an adjustable unit that heats the needle so the user can "set" drill holes in loosely woven fabrics or fuse high plies of synthetics to prevent shifting during the cut.

PowrLite Drill Brackets for your hand drill are ideal for light duty applications and are affordable.

ENDCUTTER SYSTEMS

K-105 Manual Endcutter System

Quickly and accurately cuts each ply while eliminating wasted material, for fast cost recovery. Cuts all material types, from natural to synthetic and industrial. Built-in sharpener and ply counter. 4 inch blade cuts 3/4 inch fabric.

K-205 Semi-Automatic Endcutter System

Similar in capability to the K-105, but the cut function is automated. Features an electronic ply counter, width control, and built-in sharpener.

K-405 Fully-Automatic Endcutter System

For ultimate efficiency, get all the features of the K-205 plus completely automatic cut and lift functions. Requires compressed air.

USE GENUINE SPARE PARTS!

Protect your investment and your warranty! Use only genuine Maimin Blades and FlexiBands - not generic substitutes. You'll have better productivity and less frequent replacement.

New! Service Parts Kit for Sabre and Varispeed (Part #22147) has it all - All commonly used replacement parts in a handy, convenient package at the ready when you are... Save 25% over retail prices! Be productive - order today.
