About Extend Your Day

Extend Your Day is a family run business located in Stewartstown, PA. My father, Mark, is my field technician. My wife, Kayla, and mother, Lynne share administrative responsibilities.

We are a four-season operation providing landscaping, lawn care, property cleanups, and residential snow removal among other services.

Over the past 10 years I have learned so much about lawn care, landscaping, and business. I love to learn and am continually looking for ways to grow as an individual and business owner.

I am committed to offering outstanding services that will help beautify your home and find more time in your day. Providing exceptional customer service is my

number one goal. If there are ever questions or concerns, please reach out.

Kayla and I are proud members of the Stewartstown Lions Club. Together, we enjoy giving back to the community. During our busy Extend Your Day season, we help organize the various Lions Club community activities.

The Benefits of Aeration and Overseeding in Early Fall (Late August-October)

Aeration removes small plugs of soil to relieve compaction, allowing oxygen, water, and nutrients to reach the roots more effectively. Having this done before winter gives the lawn more time to strengthen its root system and support healthy growth before colder weather arrives.

Overseeding after aeration helps fill thin or bare areas in the lawn. The exposed soil created by aeration improves seed-to-soil contact, which can lead to better germination and a thicker, healthier lawn.

Fall is an especially effective time to have both services done. The warm soil supports fast seedling growth, cool nights reduce heat stress, natural rainfall provides irrigation, and fewer weeds mean seedlings have less competition for growth.
