Institute of the
Triangle

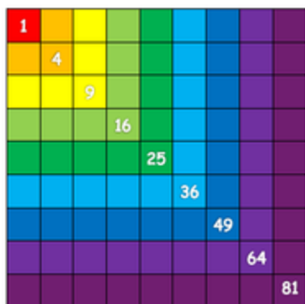

Exploring the fun of math
TriangleMathInstitute.com

Mathematics Institute of the Triangle, based in Chapel Hill, NC, is an afterschool and weekend math enrichment program. We serve local students as well as those as far as the West Coast, Canada, and India.

We specialize in sharing the joy of mathematics with children as young as age 3 through college and adult learners.

We offer weekly **classes**; **tutor** (for those who need extra help or who want to playfully explore further); have summer **math circles** for preK through 2nd graders where we play with mathematical ideas; organize **math walks** to appreciate how “math is everywhere” in contexts like gardens, nature, art, architecture, form vs. function, and more; have **data science** activities based on making sense of the world around us by collecting and analyzing relevant numbers; explore **history of math**; prepare for and host **math competitions**; and in general help learners of all ages connect with the joy of mathematical thinking.

*Contact us and follow us on social media via **TriangleMathInstitute.com** and 919-335-8470. We can schedule an assessment for weekly classes from elementary school through calculus, statistics, discrete math, and competition math, and arrange for in-person or virtual tutoring.*

2026-27 Class Schedule

online: mathinst.com/schedule

- Level 1 likely F 3-4:15p
- Level 2 Th 3:30-5:30p
- Level 3 W 4:15-6:15p or
online F 6:45-8:45p (3:45-5:45p PT)
- Level 4 F 4:30-6:30p
- Level 5 Su 3:30-5:30p
- Prealgebra Su 6-8p
- Algebra Th 6-8p
- Geometry Su 3:30-5:30p
- Interim. Alg. Th 5:30-7:30p
- Competition Math W 6-8p
- Programming with Python M 4:30-6:30p
- Language Arts for 4th-6th graders Tu 4-5:30p
- Penmanship for Clear Thinking F 3:30-4:30p
- Word Play F 4:45-5:45p
- SAT/ACT preparation M 4:30-6:30p

We open our new
half-million dollar
Chapel Hill facility
this August!
