

BORAMBIL PARK

Media release: Borambil Park and ATOC Partners, LLC, Monday 1st April 2024

TORCH Ignites 'Down Under'

One of the world's finest and most distinguishable quarter horse stallions, **A Tale Of The Cat (US) aka TORCH** is now available as a sire in Australia. Being the *only* producer offered by the most prolific sire in AQHA history HIGH BROW CAT bred from AUTUMN BOON out of the most prolific mare in NCHA history ROYAL BLUE BOON, TORCH is a '*must breed to*' for the most discerning.

Borambil Park announced today the signing of a perpetual strategic partnership with ATOC Partners, LLC of Texas, which carries with it the exclusive privilege to be guardians of the TORCH brand in Australia.

"We're thrilled and humbled to partner with ATOC Partners, and become custodians of the TORCH brand" said Bianca Kelnack of Borambil Park.

"A genetic cross of this calibre is very rare indeed, and almost certainly has never been made available in Australia. We believe that TORCH will tick all the boxes; He is a proven sire in the US, his semen is absolutely top quality and there will be generous doses, and his price point will be very attractive"

As the 3rd highest money earner out of Autumn Boon, TORCH is producing world-class offspring with phenomenal cow sense and a perfect mindset

and trainability, that will be an outstanding addition to any cutting horse or breeding program.

TORCH already boasts an impressive legacy. He is a weighty NCHA money earner and, like his sire and dam has earned a wide range of honours on the US cutting stage. TORCH was trained and shown by Hall of Fame inductee Jason Clark and was the odds-on favourite to win the 2014 NCHA Futurity Open in the US. You can read all about his story at: <https://borambilpark.com.au/a-tale-of-the-cat-us>

"Australian owners and breeders had been asking to produce from TORCH for a while, so when the opportunity to work with Bianca and David arose, we were unanimous in our decision to partner with Borambil Park" said John Henry, Managing Director ATOC Partners, LLC. "Australia has some of the best trainers in the world to train out TORCH'S offspring and we are all very excited about heading down under".

About ATOC Partners

ATOC Partners, LLC is a Texas Corporation located in Hico that owns Torch. The partnership is managed by 2Henry's of Hico, LLC and co-owned with well-respected US cutting industry stalwart Randy Chartier and his wife Kelle.

About Borambil Park

Borambil Park is situated on the prolific Liverpool Plains (near Tamworth) in New South Wales. Operating an agribusiness specialising in the production of premier Angus and Wagyu X Angus F1 cattle for the Australian feedlot sector, the business also breeds, develops and trains high-performance quarter horses, specialising in cutting.

Borambil Park is a strategic partner of ATOC Partners, LLC, and represents Torch exclusively in Australia.

TORCH semen is available in Australia for the ensuing season.
