

LIPOSUCTION ASPIRATOR

XENA-I

BG MEDİKAL
CİHAZLAR

Liposuction Aspirator XENA-I

- New generation aspiration device
- Three double-draft compressors
- Precise pressure, flow and sound adjustment with digital touch screen
- Dual fan cooling system
- Thermal protection
- Compliance with international standards for material selection and assembly

Front panel / Innovative design

- Easy to clean and disinfect the surface
- Leakproof cover material

Precise manual volume and flow control

LIPOSUCTION ASPIRATOR

XENA-I

BG MEDİKAL
CİHAZLAR

- Elektromagnetik girişim filtresi
- İngilizce/Türkçe dil seçeneği
- Uzun süreli çalışırken aşırı ısınma durumunda otomatik alarm sistemi
- Otomatik devre kesici

LIPOSUCTION ASPIRATOR

XENA-I

BG MEDİKAL
CİHAZLAR

Digital touch screen

7 inch, leakproof

Touch Screen Features

- Start-Stop function
- Compressor temperature indicator
- Shutdown sensor in case of overheating
- Digital vacuum gauge
- Status indicator
- Pedal selection function
- Precise manual volume and flow control
- Shockproof surface
- Module box providing easy maintenance built together with an electronic circuit board

Technical specifications

Model	XENA-I
Max air flow	450 lt/ dk
Strength	750 Watts, AA +
Voltage	220 V AC
Frequency	50 / 60 Hz
Flow rate	210 LPM
Max vacuum	3 x 1500 mm HG
Thermal protection	Automatic pump shutdown
Sound level	12-14 dB
Weight	56 kg
Dimensions (W/ D/ H)	48 / 48 / 112 cm
Warranty period	2 years
