By Julia Salazar

From **one dream** to a **thriving team**
Unified Financial Tax Service LLC was
built to help families and entrepreneurs
take control of their finances and
maximize every opportunity.

BEHIND THE BRAND

Our team is built on trust, integrity, and a shared mission to serve our community with excellence. Unified Financial Tax Service LLC stands for teamwork, transparency, and getting you the max — every single time.

Unified Financial Tax Service LLC was born from one simple yet powerful idea — bringing people together. What started as a vision to serve the community through honest, reliable tax preparation quickly grew into a movement rooted in unity, trust, and empowerment. The name Unified wasn't chosen by chance; it represents the very heartbeat of who we are — a team and a family that stands stronger together.

From day one, our mission has been to make the tax process feel personal, approachable, and rewarding for everyone we serve. We believe that filing your taxes shouldn't feel stressful or complicated — it should feel empowering. Every client who walks through our doors or connects with us online is more than just a number; they're a part of the Unified family. We take pride in helping people maximize not only their refunds but their confidence, knowledge, and financial goals.

As the team grew, that same sense of unity became our foundation. Each member of Unified Financial Tax Service carries the same vision — to serve with excellence, integrity, and heart. We celebrate teamwork, support one another's growth, and strive to deliver top-tier service that feels both professional and personal. Because when we work together, the results speak for themselves.

"I built this brand on faith, family, and togetherness. I believe when we stand united, we win — not just as a team, but as a community."

– Ju Salazar, CEO & Founder

At Unified Financial Tax Service, we don't just prepare taxes — we build relationships, create opportunities, and uplift the people we serve. Our story is one of unity, resilience, and a shared commitment to helping others reach their full potential. That's what makes us different. That's what makes us Unified.

BUILDING OPPORTUNITY THROUGH UNITY

What started as one woman's determination to serve her community has grown into a nationwide network of opportunity. Unified Financial Tax Service LLC began with a single desk, a dream, and a deep desire to help others — not just through taxes, but through empowerment. What once was Julia Salazar filing returns on her own has transformed into a movement that now trains, mentors, and supports future tax professionals across the country.

At Unified Financial Tax Service LLC, we believe that opportunity should be accessible to everyone. That's why we've built a hands-on training program that guides aspiring tax preparers step-by-step — from learning the tax process to becoming certified and registered with the IRS. Our team members gain financial independence, flexible hours, and the confidence to build a business that truly changes lives. For many, this isn't just a job — it's the start of a new chapter.

But what truly sets us apart is our culture. We don't just train tax preparers — we build a family. Our 45 partners nationwide embody unity, support, and excellence in everything they do. At Unified Financial Tax Service, we lift each other up, celebrate each win together, and push one another to grow. It's more than teamwork — it's sisterhood and brotherhood with purpose.

Each professional who joins our family carries our mission forward — to educate, empower, and bring financial awareness to their communities. Together, we're changing the way people view taxes, money, and opportunity. At Unified Financial Tax Service, we're not just helping people file taxes — we're helping them build legacies.

Powering Through Purpose

Cierra Zachary

TAX PREPARER • HEALTHCARE PROFESSIONAL • STUDENT • MOTHER OF THREE

In the heart of Southeast Texas, Cierra Zachary is proving that dedication and vision can take you far — in both business and life. Born and raised in Port Arthur, Texas, and now residing in Beaumont, Cierra embodies the spirit of determination. Balancing multiple roles, she is a committed tax preparer, a healthcare worker, and a student pursuing her Associate's Degree in Health Science. Her ability to manage each with focus and grace is what sets her apart.

Now entering her second year in the tax industry, Cierra reflects on her journey as one filled with growth and opportunity. "This has been an amazing opportunity that's truly paid off," she says with pride. "Each season motivates me to reach new goals."

Her work in tax preparation has not only helped clients achieve financial clarity but has also inspired her to keep advancing. With her eyes set on becoming an Electronic Return Originator (ERO), Cierra is driven by her commitment to service, excellence, and professionalism.

When she isn't studying or assisting clients, Cierra's greatest joy comes from being a mother of three, leading by example and showing her children that hard work and perseverance open doors to endless possibilities.

Kianna Green

Rising Into Her Purpose

In a world where opportunity often knocks softly, Kianna Green chose to listen, rise, and answer with confidence. Today, she stands proudly as a partner of the Unified Financial Tax Team, marking the beginning of a powerful new chapter in her journey toward financial freedom and personal growth.

For years, Kianna admits she hesitated — unsure if the time was right to join a tax company or dive fully into the world of finance. But when an offer too good to ignore came across her path, she didn't second-guess it. "I prayed about it, and then I ran with it," she says with determination in her voice.

Behind her drive stands a beautiful family, her four children who motivate her daily, and her husband, whom she lovingly describes as the backbone of their household. While he takes on the physical responsibilities of providing, Kianna manages the home with care and precision. But deep down, she always knew she wanted more: more growth, more independence, and more opportunities to create a better future for them all.

"I don't want my husband to have to work so hard on his own," she shares. "I want to build something that allows us both to breathe, to live freely, and to enjoy the blessings we're working so hard for."

Now, with her role at Unified Financial, Kianna is turning that vision into reality. Her mission goes beyond preparing taxes — it's about helping others achieve stability, confidence, and financial empowerment.

"I'm a caring, understanding person who believes that when we build together, we grow together, and we stand together," she says. It's a philosophy that reflects her personal values and her professional purpose — creating community through service and success.

As she embarks on this exciting new venture, Kianna Green embodies what it means to take a leap of faith, to invest in oneself, and to transform dreams into legacy.

THE RISE OF TRIMECA REESE

My name is Trimeca Reese, born and raised in Beaumont, Texas . I'm an upcoming tax preparer with big dreams, unshakable faith, and a heart full of purpose. My journey hasn't been easy, I've faced trials, tribulations, losses, and lessons that could've broken me... but instead, they built me .

Through it all, I kept going , not just for myself, but for my kids and my grandson . They are my reason, my motivation, and my biggest "why." Every sacrifice I make, every goal I chase, and every prayer I whisper is for them. I want them to see that no matter how many obstacles life throws your way, you can still rise.

I'm stepping into a new season of elevation, consistency, and growth, mentally, spiritually, and financially . I'm learning to trust God's timing, keep my peace, and move with intention. I'm on my grind to become that 6-figure chick not just for the lifestyle, but for the legacy I'm building for my family.

This journey is personal , it's about healing, becoming, and believing even when the odds are stacked against me. I thank God I'm not where I used to be and I'm claiming everything He has for me in this next chapter.

I'm walking in faith.

I'm focused on my purpose.

And I'm teaching my babies that strength, prayer, and consistency can change your whole life.

The rise of Trimeca Reese is just beginning , and it's only up from here.

HELLO

I am

RONISHA JORDAN

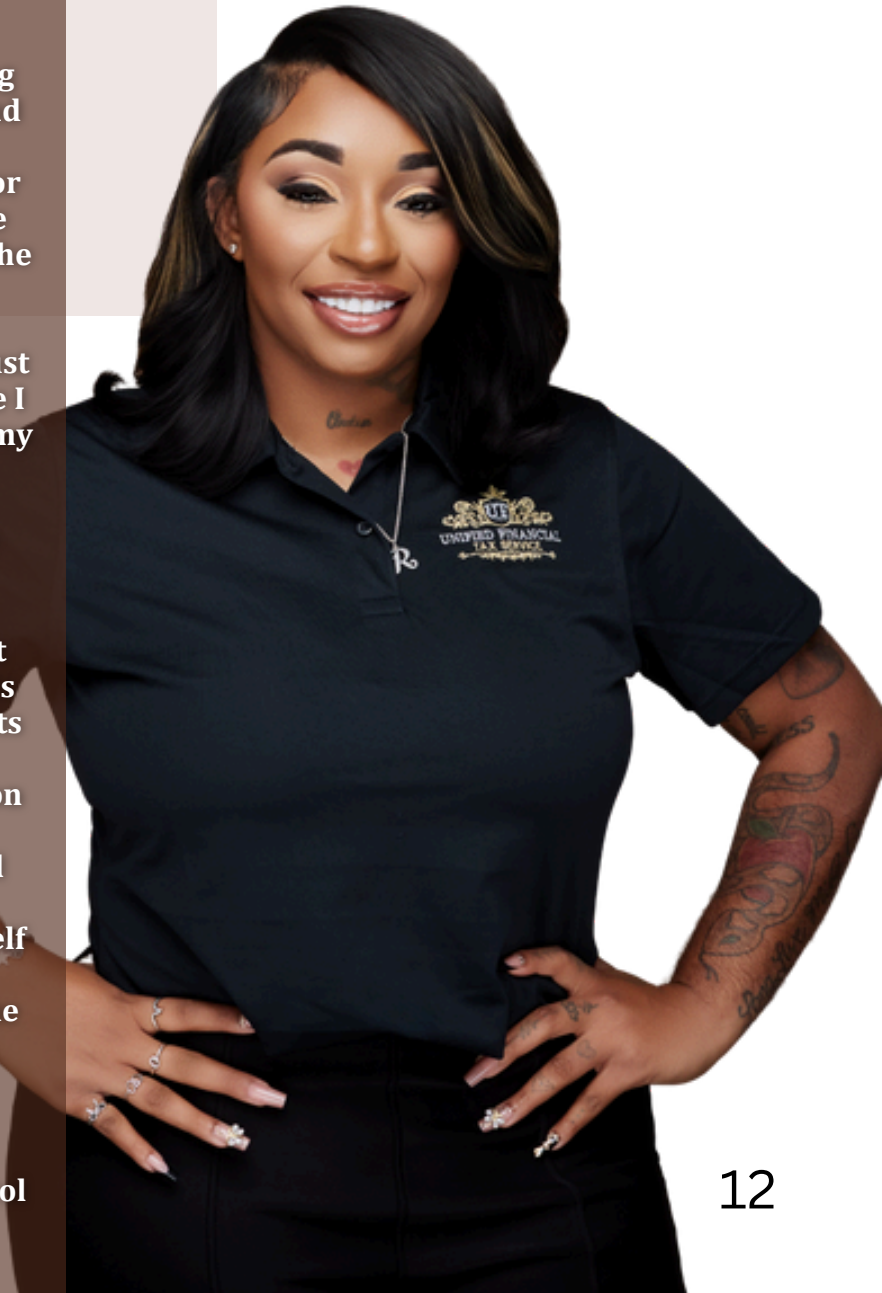

I'm a dedicated and detail-oriented tax preparer who's passionate about helping individuals and small businesses make the most of their finances. I take pride in providing accurate, honest, and stress-free tax services that make my clients feel confident every step of the way.

My goal is to make tax season easier by breaking things down in a way that's simple to understand — no confusing tax talk, just real answers and results. Whether you're filing for the first time or managing multiple income streams, I make sure every deduction and credit is found so you get the best refund possible.

I believe in building lasting relationships, not just completing returns. My clients trust me because I treat their finances with the same care I'd give my own.

Where I See Myself in 5 Years as a Tax Preparer

In five years, I see myself as a well-established and trusted tax professional with a strong client base that continues to grow each year. My goal is to not only prepare taxes but also educate clients on how to make smarter financial decisions throughout the year — not just during tax season, also. I plan to expand my services to include business consulting, bookkeeping, and financial planning so that my clients can get all their financial needs met in one place. I also see myself leading a small team of trained preparers, mentoring others who are just starting out in the tax industry. I envision operating from my own office space, building long-term relationships with loyal clients who value honesty, accuracy, and personalized service. Most importantly, I want to be known for helping people take control of their finances and feel confident every tax season.

Meet MaKayla Thompson

My name is MaKayla Thompson, formerly known as MaKayla Edwards. I recently got married and am a proud mother of three. I have been preparing tax returns for almost two years, making me a second-year tax preparer.

What truly motivates me to continue in this field is my family. My goal is to build generational wealth and achieve financial freedom, not only for us but also to inspire others who may be struggling to move forward or find their way out of difficult financial situations.

TAX TIPS FROM MRS. THOMPSON

Through my first year of preparing tax returns, I've learned some valuable lessons I'd love to share:

- Always pay your federal taxes. Whether or not you have dependents, this can make or break your return.
- Keep detailed records for your business. Save your receipts, track your mileage, and document business-related expenses—you can write these off and reduce your taxable income.

As I move into this new tax season and continue to grow with Unified Financial, my mission remains clear: to help others gain financial confidence, stability, and the knowledge needed to secure their financial future. ¹³

A Louisiana Native, part of Unified Financial Tax Service LLC, is a first-year Tax Preparer based in Southeast Texas, proudly serving clients in all 50 states. Brii brings her Southern warmth, professionalism, and passion for people into every return she files.

Brii “B-Splendid” Guillory

With a background in management, customer service, and personal development, she has built her business on trust, education, and empowerment. Her “why” -simple but powerful- runs deep – helping clients maximize their refunds, understand their finances, and take confident steps toward financial freedom.

As a first-year tax preparer, she’s passionate about more than just numbers; she’s about impact.

What started as a leap of faith quickly became a mission: to unify financial literacy with genuine care. Through her brand, #FileExquisiteWithBrii, she encourages clients to not only file their taxes but to elevate their mindset – knowing that every number tells a story of growth and opportunity.

Bri is redefining what it means to be a tax preparer – approachable, knowledgeable, and rooted in service. She’s proof that when passion meets purpose, the results are truly exquisite.

Bri’s mission is to help people maximize refunds, gain knowledge, and build financial freedom.

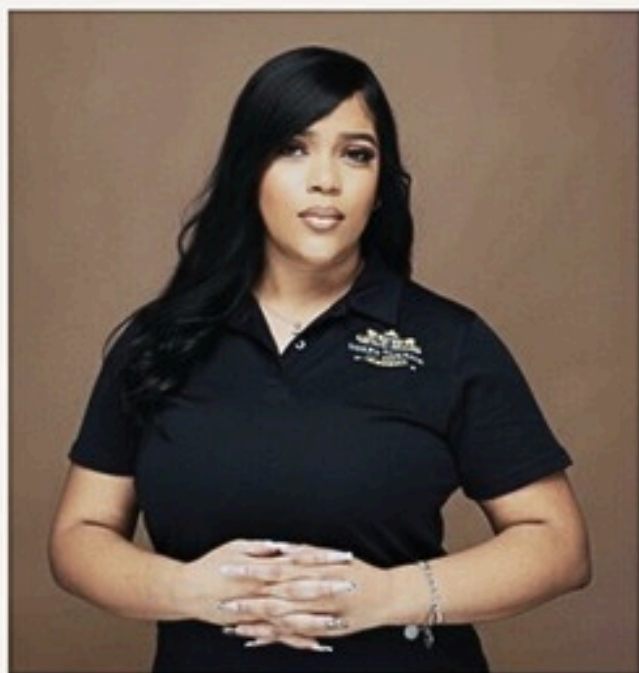

Her signature motto – #FileExquisiteWithBrii embodies her belief that finances can be handled with both excellence and heart. #FileExquisiteWithBrii~ says it all – she’s here to make the process smooth, empowering, and a little more splendid each season.

When I joined Unified Financial Tax Service, it wasn't just about numbers — it was about family. As a Mother of two, I wanted to build something my children could be proud of — a business that teaches them the value of hard work, financial literacy, and helping others.

Family, Finances, and a Future — That's What We're Building Together

Over the years, I've seen how confusing and stressful tax season can be for many families. That's why I made it my mission to help my community not only file their taxes, but truly understand them — and to make sure every family gets the maximum return they deserve.

For me, it's more than a job; it's a passion. Every return I prepare is done with care and integrity, because I know that those refunds help real families reach their goals — whether that's saving for a home, supporting their children's education, or simply finding a little peace of mind.

This business is about more than income — it's about impact. It's about showing my kids that when you lead with honesty and purpose, you can make a difference in your community and build a legacy that lasts for generations.

At Unified Financial Tax Service, we're proud to serve families with personalized attention, expert guidance, and a genuine commitment to maximizing your return — every time.

Alaysha MAYFIELD

Just a small town girl who is beating all odds built against her and entering this new season fearlessly! Growing up, I have always been the shoulder to lean on when things got tough. It took me a while to realize that I actually had a passion for helping people – whether it's life decisions, feeling confident, or making financial decisions. Over the years, I have seen and experienced how stressful money matters can be. Knowing how it feels to feel like you're doing everything right but still doubting yourself and wondering if you've done the right thing. Realizing that I am not the only one going through this and knowing that I could learn a way to help remove some of that stress inspired me to become a tax preparer.

Choosing Unified Financial Tax Services was a deeply intentional decision for me. The founder is not only a respected professional, but also a childhood friend whose journey I have witnessed up close. Over the years, I've seen her grow not just financially, but mentally and spiritually, evolving into a woman of discipline, integrity, and purpose. Watching her build something meaningful from the ground up inspired me in ways that go beyond business. Trust is essential when stepping into a new chapter of life, and I trust her vision, leadership, and heart. As I take on this new journey, I feel confident knowing I am guided by someone who leads with wisdom, experience, and genuine care for the people she serves.

When I'm not crunching numbers as a tax preparer, you can usually find me exploring my creative side—whether through artistry or immersing myself in a good book. Fun fact: I've always had a love for math and building intricate Lego creations, a passion that blends problem-solving with imagination. Beyond taxes, I serve at Buffalo Wild Wings and hold a license to sell life insurance, experiences that have strengthened my people skills and business acumen. The CEO Herself

JULIA SALAZAR

I was born and raised in the heart of Beaumont, Texas, in the Avenues, where life itself became my first teacher. Growing up alongside my two sisters, I learned early on the value of resilience, faith, and ambition. While we didn't have much, we had enough belief to dream beyond our circumstances. Those early experiences taught me that challenges don't define who you are they refine you. That foundation shaped my mindset, my work ethic, and the purpose that continues to drive everything I do today.

Family is everything. I'm a mom of two, and every day they remind me why I push, why I strive, and why I refuse to settle. My sisters and I built a bond out of shared struggles and endless support a sisterhood that has been my backbone through grief, joy, and everything in between. I lost my mom during my first year doing taxes, and the grief almost broke me. But I refused to let it define my story. Instead, it became fuel a reminder that life is fragile and every moment counts.

Taxes aren't just what I do; they're how I built my life. I worked for other firms, learned the ropes, and then took the leap to create my own company. In 2024, I hit a milestone that few my age achieve I grew my company from the ground up into a six-figure operation at 26. This wasn't just about numbers; it was proof that vision, perseverance, and faith can turn the impossible into reality.

Through every late night, challenge, and triumph, my love for Jesus has been my anchor. He's the reason I push forward when the weight feels unbearable and the reason I celebrate when the victories come. My journey is one of grit, faith, and relentless determination a story still being written, one bold step at a time, and one that reminds anyone reading that your past is just the prologue to your greatness.
