

THRIVE in Grade Five

Dear Future Fifth Grade Families,

Welcome to your new learning domain! My goal is to continue to nurture the academic skills you have mastered under Mrs. Wiebe's tutelage.

In preparation for the fifth grade year, please read a minimum of two books and be prepared to take the AR tests in August. Also, continue to practice your multiplication facts, common multiples, identifying lowest common denominators and long division. The Freckle app offers math fact practice.

Remember that wherever you may go, whatever you may do, take your dear friend Jesus with you.

May our loving Father bless you with His peace,
Monica Keenan
