

THRIVE in Grade Five

Dear Future Fifth Grade Families,

Welcome to your new learning domain! My goal is to continue to nurture the academic skills students have mastered under Mrs. Rodriguez's tutelage. In preparation for the fifth grade year, please read a minimum of two books and be prepared to take the AR tests in August. Also, continue to practice multiplication facts, common multiples, identifying lowest common denominators and long division. The Freckle and Achieve 3000 aps (access olph1.org student tab) offer math skill practice. Furthermore, begin to memorize state capitals and identify state locations on a map.

Remember that wherever you may go, whatever you may do, take your dear friend Jesus with you.

May our loving Father bless you with His peace,
Monica Keenan
