Define your digital identity

Do-It-Yourself to Full Service Consulting

EXPLORE ALL YOUR OPTIONS

We approach compliance with our 4-step method. Have our experts get it all gone for you, or take your time and use our extensive templates.

Stage 1: Assessment

Using our proprietary checklist, assess where your company stands on design, process, and policies.

Stage 2: Analysis

Review your systems, data maps, and use of Personally Identifiable Information, culminating in a full Privacy Impact Assessment.

Stage 3: Implementation

Implement the processes, policies, and system changes needed to meet regulation standards.

Stage 4: Documentation and Training

Record your efforts and train your staff to ensure compliance according to the Data Protection Authorities.
