

## Our Literacy reading program aims to enhance:

- **Phonemic awareness:** The ability to recognize and manipulate individual sounds in spoken words.
- **Phonics:** Understanding the relationship between letters and sounds.
- **Vocabulary:** Expanding knowledge of words and their meanings.
- **Fluency:** Reading text accurately, quickly, and with expression.
- **Comprehension:** Understanding the meaning of what is read.

## Here are some key aspects of literacy reading programs:

### Target Audiences:

- Our programs are designed for various age groups, from young children just beginning to read to adults seeking to improve their literacy skills.
- They also address specific needs, such as those of students with learning disabilities or English language learners.

### Instructional Methods:

- Our programs often utilize research-based methods, such as explicit instruction, systematic practice, and ongoing assessment, to be effective.

## ANYANGO FOUNDATION LIBRARY LITERACY READING PROGRAM

The Anyango Foundation literacy reading program is a structured educational approach designed to develop and improve individuals' reading skills. The programs vary depending on the target audience and their specific needs.

**Purpose:** Our literacy reading program aims to equip learners with the skills to read and understand written information. This is an essential skill for success in school, work, and everyday life.

### Program Components:

They include reading aloud, guided reading, independent reading, and vocabulary-building exercises.
