

All American Framing is a veteran owned & operated business.

Charity Fundraising Support

All American Framing can help increase your fundraising efforts at your next event. We have a win-win solution in supplying your organization with authentic memorabilia at wholesale cost on a consignment basis. If an item does not sell for any reason, we will take back that item at no charge to you. Your organization keeps all the profit above the wholesale price.

Our program provides your group with the best quality autographed memorabilia from some of the top sports athletes, actors, musicians, and celebrities available.

This service has proven successful for many of our clients over the years. The process is simple and immediate. A representative from our team can assist you in selecting unique and ideal items for your target audience and your fundraising goal. Items chosen can be picked up before the event, or we can deliver them to your event. All American Framing will also provide a representative to assist you with the set-up of your silent auction and will remain on hand to answer any questions you or your attendees might have regarding the items etc.

Every dollar over the wholesale price provided to you goes to your fundraiser!
If an item has no bids...no problem, All American Framing will take that item back at no charge.

Simplicity - Flexibility - No Risk

We will provide a photo inventory of All Items available and can assist you in selecting the perfect items for your event.

You can pick up your items before the event or a member of our team will bring it to your event.

A member of our team will help you set up and be at your event to answer questions that you or your attendees might have.

Every dollar over our wholesale price goes to your fundraiser!
